in Mr. Carr's proposals and submits proposals for the Mysore City.

Bangalore Dt.

All the Talukas except Bangalore and Kankanhally have been provided with two Investigation Centres. The two excepted Talukas are given three Investigation Centres each, in view of their importance.

6 Drill Instructors are proposed to be appointed as in the other Dts.

7 The following difference in the proposed scale of the Dt. Reserve is observed between the Supdt's memo. and the Statements:-

	Jamadars	Daffadars	Constables
Supdt's memo.	4	8	50
Statements	4	8	30

8 In the proposals for the Bangalore Taluk provision has been made for the Jarabanahally Station But the question of the establishment required for this place and the recovery of half the cost thereof from the Residency is still under correspondence.

Vide file no 171 of 1908 linked.

GPB-50,000-17-3-07

Serial No.

9 Basavanguḍi has been transferred from the Bangalore Taluk to the Bangalore City jurisdiction.

10 It is stated that the present proposals involve an extra cost of Rs 28 per mensem or Rs 336 per annum.

11 There seems to be no difference of opinion as regards the Bangalore Dt. between Mr. Carr and Mr. Devaraj Urs.

Bangalore City

12 It is represented that the existing force is quite inadequate to cope with the increased work due to the rapid growth of the new extensions. It is proposed to divide the city and the extensions into 4 divisions and to place each division under an Inspector and to have a Prosecuting Inspector for the City. So far there is no difference between Mr. Carr's proposals and those of Mr. Devaraj Urs. These officers, however, differ in the rest of the scheme. The differences are noted below:—

sheet.

GPB—50,000—17-3-37

Serial No.

Differences.

13 Mr. Carr. Mr. Devaraj Urs.

Superintendent.

Recommends an allowance of Rs 100 per mensem to the Dt. Supdt. of Police, Bangalore for being in charge of the City Police.

Relieves the Dt. Supdt. Bangalore entirely of the responsibility for the City work and proposes to appoint a separate Supdt. or Asst. Supdt. solely for the City work on an average monthly pay of Rs 350.

14 Inspectors.

Retains the City Chief Inspector and proposes to increase his pay from Rs 175-5-200 to Rs 200-10-250. Thus Mr. Carr would have 6 Inspectors to the City including the Divisional and Prosecuting Inspectors. He would also give a local allowance amounting to Rs 150. per mensem in all, to these Inspectors.

Mr. Devaraj Urs does away with the Chief Inspectors & proposes a Supdt. or an Asst. Supdt. in his stead. He would also withhold the local allowance proposed by Mr. Carr to the Inspectors.

NOTE—Contn. sheet.

GPB—50.000—13-5-08

Serial No.	Mr. Carr.	Mr. Devaraj Urs.
15	**HC. Constables & Sergeants.** HC. Constables to be increased to 24 and Sergeants to 40.	Same as Mr. Carr's
16	**Constables.** Proposes to raise the number of constables to 352 and their pay by one rupee all round fixing their grades at Rs 8, Rs 9 & Rs 10.	Raises the no. of constables to 352 and their pay by one rupee all round over and above what Mr. Carr has proposed thereby fixing their grades at Rs 9, Rs 10 & Rs 11.
17	**Financial result.** Mr. Carr's proposals involve an extra cost of Rs 1946-8-0 per mensem or Rs 23358 per annum.	These proposals involve an extra cost of Rs 2178-8-0 per mensem or Rs 26142 per annum. In other words Mr. Devaraj Urs proposals entail an additional cost of Rs 2784 over and above that involved in Mr. Carr's proposals.
	N.B	states that the cost

PB—50,000—13-5-08

Serial No.

of the force proposed by Mr. Carr for the Bangalore City is less by nearly Rs 14500 than the cost of the force employed in the C. & M. Station, Bangalore, which is almost equal to the City in area and population and that the extra cost involved cannot be avoided.

18 Mysore Dt. (excluding Fr. Rocks circle).

Mr. Carr's proposals:—

No detailed proposals have been submitted except the Statements. According to these each Taluk will have two Investigation Centres. The Dt. Reserve is proposed to be increased by 2 Jamadars, 2 Daffedars and 21 men. The extra cost involved in the above proposals is stated to be Rs 61 per mensem or Rs 732 per annum.

Mr. Devaraj Urs:—

Mr. Devaraj Urs seems to agree with the above.

Mr. Carr 19 French Rocks circle.

French Rocks Sub Taluk and Seringapatam Taluk will have only one Investigation Centre each. All the other Taluks will have two each. The Fr. Rocks Sub Taluk will have a Sub Inspector. This will be in addition

NOTE—Contn. sheet.

GPB—50.000—13-5-08

Serial No.

to the 7 Sub Inspectors already sanctioned. The Reserve is also proposed to be increased by 1 Jamadar, 2 Daffedars and 10 Constables.

22 The above proposals are said to result in a saving of Rs 77 per mensem or Rs 924 per annum.

Mr. Devaraj Urs:—

21 Mr. Devaraj Urs proposes to abolish the Fr. Rocks circle and to include it in the Mysore Dt. proper, to transfer the Asst. Supdt. of Fr. Rocks to the Mysore City and to abolish the Fr. Rocks office establishment which at present costs Rs 125 per mensem. One of the Probationary ~~Upstation~~ Supdts who has ~~upto~~ recently ~~the~~ Department is proposed to be permanently attached to the Dt. Police Office, Mysore to assist the Dt. Supdt. It is further proposed to strengthen the office establishment of the Dt. Supdt by two heads of Rs 25 and Rs 15 per mensem. There seems to be no other difference between this officer and Mr. Carr.

P. T.

The other being the 1 Asst: Supdt: of Fr. Rocks who is proposed to be made Asst. Supdt & transferred to the Mysore City

NOTE—Contn. sheet.

GPB—50,000—18-5-08

original proposals of the Dy. Com'r be Considered by the Fin'l Dept. If however the Administrative Dept. accepts the Dy's proposals in toto the file may be returned, with information to that effect, to Br II for note on the financial aspects of such proposals.

Mark 12-1-08

Submitted for orders.

12/1/08

(Mr Devakajellaly).

3b The Dy.'s letters, under disposal, Contains a clear account of the Changes proposed. They are:—

(1) Introduction of the Investigation Centre Scheme to Bangalore and Mysore Districts and

(2) Certain changes in the Constitution of the City Police in the towns of Bangalore and Mysore.

As regards (1) there is very little to be said. Government have already accepted the principle of the Scheme and have extended it already to the remaining Six Districts of

NOTE—Contn. sheet.

GPB—50.000—18-5-08

Serial No.

the State. Sanction must, therefore be accorded to it.

As regards (2) the principal changes advocated are :—

In respect of Bangalore city Police :—

(i) Abolition of the post of Chief Inspector and appointing a Separate Superintendent or Assistant Supt to be in charge Exclusively of the City Police.

(ii) Increasing the number of Inspectors from 2 to 4.

(iii) Increase of pay to the Constables.

Exclusive of the Prosecuting Inspector).

3] Proposal no (i) is worthy of favourable Consideration. A Chief Inspector, though highly paid, is not of a Sufficiently high Status to Command and Enforce ~~duty~~ discipline. It would be more Expedient to place the Inspectors directly under the Superintendents or Assistant Supts. The proposal is advocated also on the ground that the D. S. P. of Bangalore has hardly any time to look after the work of both the City and the District ~~work~~

There is however one Consideration

Note—Contn. sheet.

GPB—50.000—18-5-08

Serial No.

which must not be lost sight of in connection with this arrangement. As observed by the Dy. himself big cities tend to become increasingly the centre for crime. It is of therefore of the greatest importance that the Superintendents of the city and the district should work with the utmost harmony. The proposed change sacrifices to some extent unity of control but it is hoped that the Deputy Commr to whom both the Superintendents would be subordinate, would, by his vigilance supply the requisite corrective.

(ii) The proposal to increase the number of Inspectors to 4 is exclusive of a separate prosecuting inspector to the city, which is said to be a great necessity.

(iii) Increase of pay to the Constables.

37 The Dy. proposes that the Constables in the city should be paid Rs 9, 10 & 11, as those in the C.I.D. St are paid Rs 9/-, 10/-, 11/- & 12/-. There is considerable force in his argument, that if we continue to keep our pay low, the better men will be drawn away

NOTE—Contn sheet.

GPB—50 000—17-3.07

Serial No.

by the C.I.D. Station.

40 The Dy. further proposes that the local allowance now paid to Inspectors may be stopped and that instead they may be paid horse allowance of ~~Rs~~ 20/- instead of the usual rate of ~~Rs~~ 15/-.

41 The total financial result of the Scheme (so far as B. city is concerned) is a net increase of ~~Rs~~ 26,142/-.

42 As regards Mysore city, the Dy. proposes

(i) the abolition of the French Rocks circle as a separate Police unit and the appt of a Superintendent to Mysore city just as in the case of Bangalore

(ii) granting horse allowance of ~~Rs~~ 20/- each to the Inspectors in the city (3), besides appointing a Prosecuting Inspector &

(iii) Appointing a probationary Assistant Supt of Police to the Office of the Mysore District Police Supt.

* Necessity for both these changes is explained in the Minutes thereon marked S & W

NOTE—Contn sheet.

Serial No.

The abolition of the French Rocks circle is concurred in by the Deputy Commr of Mysore and, ~~[illegible]~~, there Coned be no objection to it.

43 As regards the appointment of a ~~Dy~~ Superintendent or Asstt Supt, in place of the Chief Inspector, the same remarks that were made in regard to Bangalore apply also to Mysore.

44 Proposal no ii may be sanctioned. It does not call for any special remark.

(iii) I am not sure, if by this ~~rule~~ proposal, the Dy. means that there Shoned always be a probationary Superintendent attached to the D. S. P's. Office. This a matter for consideration whether the Civil Service rules, as they now Exist, Contemplate the appointment of a "Prob" Asstt Supt of Police" as such.

45 The result of these arrangements in the Mysore District including the city is a net reduction in charges of ~~Rs~~ 1710/- per annum.

46 But this when Set off against the made increase in Bangalore results in a net increase of ~~Rs 10 74/-~~ 24,432/- per annum for the whole Scheme (on this Calculation

NOTE—Contn sheet.

Serial No.

the difference in Cost on account of the Investigation Centre Scheme for the two districts is not included because it is so very trivial - viz an increase of ~~Rs~~ 28/- per mensem in the Bangalore ~~District~~ and a decrease of ~~Rs~~ 16/- per mensem in the Mysore ~~Dt~~ or a net increase of ~~Rs~~ 12/- per mensem for between the two.

47 Mr Dwarajans does not recommend any change in regard to the proposals re investigation Centres for the districts, Submitted by Mr Carr. It is only in regard to the Police arrangements for the two Capital cities that Mr D. Rs's scheme differs from that of Mr Carr, but though it is slightly more costly, Mr D. Rs's scheme is better thought out.

17.2.09. SH

Secretary ~~H~~ 8 The proposals of the Dy of Pol appear to be generally suitable If they are approved from the admv point of view Br II will be consulted. If the proposals to place an Asst Supdt of Pol in charge of the cities of Bangalore & Mysore are approved, the cadre of the Civil Service

I + II 53 Mr Devaraj Urs strongly recommend the appointment of an independent Supt for the charge of the City alone and his view has been accepted by the administrative Dept. The personal adds appreciably to the present expend and it is considered quite necessary to relieve the District Supt of the charge of the City + give a Separa Officer of the rank of an Asst Comm for the City, it is suggested that the feasibility of reducing the no of Inspectors proposed, may be

Note—Contn. sheet.

Serial No.

three Inspectors and the Sergeants to have in future four ordinary Inspectors & one prosecuting Inspector, besides a Supt for the charge of the City alone. Perh this possible to reduce the No of Inspect of the arrangement of having a Separa Supt for the City alone is approved finally. At least the prosecuting Insp may be eliminated as the City Supt m be able to arrange for Conducting prosecutions either by attending to the work himself or by deputing one of the Inspectors under him

III 5th As the essential feature of the Investigation Centre Syste is to entrust the work of investig to Officers of or above the rank of Head Constables, the proposals of the IGP in this respect have to be sanctioned. The city will, it wd appear, have 8 Centres and to provide for the presence of a Head Constable at each of the Centres both day & night Head Constables have to given are proposed by the IG the 40 Sergeants now allow

Serial No.

the 6 on Rs 16 seem to be regarded as Jamadars (Head Constables) & apparently are entrusted with the work of investigation. ~~Officers~~ There are therefore only 34 Sergeants and their no is proposed to be increased to 40, on the ground of the inclusion of the Bowbazar Extension within the City for purposes of police arrangements & of the increase of work generally. Concerning that the no of Head Constables & Constables will be largely increased it may not be quite necessary to raise the no of Sergeants also.

V. 55 The no of Constables is proposed to be raised from 278 to 352. It is stated that for the A.B.C. System of beat introduced into the City, 32 Constables are reqd. for each Station for the patrolling work and that an addition of 12 men in ~~addition~~ made to the 32 Constables for each Station" for miscellaneous duties". What these miscellaneous duties are

NOTE—Contn. sheet.

GPB—50.000—13-5-08

Serial No.

and whether as many as 12 men are reqd. for such duties are points on which there is no definite information in the file. Considering the large no of Constables allowed for the beat duty it seems that some of them may be available for other miscellaneous duties, when they are free from patrolling work. It is suggested that the necessity for 12 men for miscellaneous work may be considered with a view to see if a lesser no of additional constables than that proposed (74) will not suffice. It is necessary to limit the addition to the irreducible minimum in view of the general financial position under which there is little or no margin for additional permanent recurring expenditure.

5b The Dy. proposes to give a Uniform horse allowance of Rs 20 to all the Inspectors. This may perhaps be allowed in view of the costliness of keeping a horse in Bangalore.

GPB—50,000—13-5-08

5

Under iii, iv, + v there is no addition

As regards I + ii the same Considerations as are urged in regard to the appointment of a Separate Supt for the charge of the City alone apply here also. The prosecuting Inspector on Rs 60 newly proposed may be left out here also for reasons urged in the Case of the Bangalore City —

5 Separate With the withdrawal of the Supt allowed for the French Rocks Sub Division, his

Note—Contn. sheet.

GPB—50,000—13-5-08

Serial No.

Office Establishment will have to be known out but it is proposed to give the three Office hands (on Rs 30, 25 + 15) to the District Supt & the City Supt of Mysore. The abolition of the French Rocks Division as an independent Police Circle will no doubt add to the office work of the Dt Supt to whom one hand may be given instead of two as now proposed. The other two may be directed to work under the the two city Supts — one under each. The DG has proposed to give a hand only to the Mysore City Supt but there is sure to be a demand for an Estabt for the Bangalore city Supt also & it is therefore as well to give him one of the three hands of the French Rocks Office proposed to be abolished.

60 There is one other proposal of the DG & that is to attach one of the Probationary Asst Supts as an Office Assistant to the Mysore Dt Supt. This

GPB—50.000—13-5-08

Serial No.

arrangement ought to be unnecessary As there is no corresponding proposal in regard to the Bangalore Dt Charge and the Parbatsinen whom it proposed to place under the Mysore Dt Supt may be entrusted with one of the City charges, thus obviating at any rate for the present, the necessity to create another appointment of an Assistant Commr as proposed by the Hon Secy in his note of 22-2-9.

Hmh
5/3/9

Fin(Secy)

+1

I venture to think that the proposals in connection with the cities of Bangalore & Mysore have been conceived on the basis of wrong analogies. "Bangalore and Mysore are our Presidency Towns and as such the Police scheme for the cities should assume be of a special nature (Para 2 of Mr Devaraj's letter under disposal). What is meant exactly by saying that Mysore & Bangalore are our Presidency Towns I do not clearly

NOTE—Contn. sheet.

GPB—50.000—13-5-08

Serial No.

understand. If it is meant that these are our capital cities & we must therefore fashion the police organization in them after the manner of Calcutta or Bombay, the position is hardly tenable. For the police organization of a town should not depend on the relative importance of a town within a State but upon the number & character of its population.

62 According to the Census of 1901, the population of Bangalore City was 69,447 souls and that of Mysore City, 68111. As the opening out of extensions means a redistribution of the population rather than increase, it is doubtful if the population of these cities has increased at all since 1901. On the other hand there is reason to fear that the population may have gone down a little since 1901. At any rate the population of each of the cities may for ordinary purposes be taken as something between 65,000 & 70,000.

63 I suppose it is not contended that the population of Mysore requires greater police supervision or police protection than the population of any other part of India. In other provinces towns with a population of 60,000 or 70,000 are not formed into a separate city Police jurisdictions apart from the Dist

NOTE—Contn. sheet.

Serial No.

Police. Towns like Dacca, Bhagalpur, Agra &c in Bengal, Mirzapur, Moradabad, Faizabad and Aligarh in the United Provinces, Rawalpindi Umballa, Multan &c in the Punjab, Calicut Salem &c in Madras and a host of others scattered all over India have larger populations than Bangalore or Mysore but are yet managed by the Dist Supdts of Police as a part of their ordinary jurisdiction. I cannot therefore think it clearly made out that a separate Supdt has become necessary for the towns of Bangalore & Mysore.

64. The comparison with the Civil & Military Station is not fair. The administration of a small isolated area is always ~~[illegible]~~ proportionately costlier. Because two few square miles comprising the C. & M. station have a Police Supdt Collector, does it follow that we should have a Police Supdt Collector for every 13 square miles or every 90,000 people? & Head constables of the Mysore Police have far greater prospects of rising to higher ranks than the constables of the C & M. Station and the slight difference of pay cannot be material. Surely all good candidates for the post of constable cannot be secured by the C & M. Station Police for they can only take 353 constables & the number of good men is certainly larger!

-Contn. sheet.

GPB—50.000—18-5-08

Serial No. 15

As regards the increase in the number of head constables, constables &c, it all depends upon the number of Sections into which the Town is divided. For eight sections, 352 constables are required at the rate of 44 constables per station. If the number of sections is reduced from 8 to 6, the existing number viz. 278 will be more than sufficient. As the number 44 for each section is made up of 32 for regular patrolling duty & 12 for miscellaneous duties that number also may be capable of reduction by Boys the above remarks it ~~does~~ is not meant that the Police service of the Bangalore City cannot be materially improved by spending on it an additional sum of Rs 25,000 every year. But the fact is that in our present financial condition there is absolutely no room for increase of expenditure on Civil administration — indeed we are already spending too much for that purpose by neglecting to provide for adequate reserves, famine insurance, Railway extension, Industrial development &c. All that I have tried to urge in the above lines is that the improvements should be effected as far as possible without material increase of expenditure.

Secretary to Government.

Police file No. 189 [illegible] 35

Submitted to His Highness.

81 In his letter No.5988/591 dated 14th March 1908, Mr. F.E.C. Carr while Inspector-General of Police submitted certain proposals for the extension of the Investigation Centre Scheme to Bangalore and Mysore Districts. On Mr. Carr's reversion to the British service, his successor Mr. D. Devaraj Urs, was consulted on the scheme. Mr. D. Devaraj Urs agreed with his predecessor in the main but proposed certain changes in the constitution of the City Police in Bangalore and Mysore.

82 2. The proposals were considered at a Council meeting and the Council was of opinion that the scheme may be introduced into the Districts proper, and that the City schemes may be separately dealt with.

83 3. The proposed scheme involves an additional cost of only Rs.144 per annum above the present expenditure and may be sanctioned.

84 4. With the introduction of the scheme into the Bangalore and Mysore Districts, the entire State with the exception of the Capital cities will be

under the operation of the same system of Criminal investigation.

Enclosure No. Memos + Cls.

Re the Investigating Centres for the Districts of Mysore + Bangalore + the Bangalore City.

GPP—1,000—3-1-08

Rs 194/- shown under the Mysore District.

4. Bangalore City.

This is the most important scheme in the whole Province, and has therefore been delayed to the last, so that I might be guided by the experience gained in working out all the Districts proposals; and after consulting with the District Superintendent of Police and the Deputy Commissioner Mr. Sparkes. The scheme will involve a very considerable increase in expendi-ture of Rs 1946-8-0 per mensem or Rs 23,358/- per annum which however cannot be avoided owing to the need for extra P'rice in the new Extensions in the City which have been growing so rapidly during the last few years, so that the Force now at our disposal is wholly inadequate. The main items of increased cost will be due to :-

(a) The number of Inspectors being brought up from 3 to 6. The reasons for the increase are clearly demonstrated in the Superintendent's memo (copy enclosed) in the details of which I fully concur. The special attention of Government is drawn to the comparative figures in the Cantonment, where it will be seen that there are according to the present scale 17 Inspectors and Sub Inspectors.

It is proposed to divide the City and Extensions into 4 Divisions with an Inspector in charge of each. In addition, a Prosecuting Inspector for the City is absolutely necessary, to look after the Court work of the City alone. The remarks of the City Magistrate, and Superintendent, may be perused in this connection. The Chief City Inspector will as heretofore be the right hand man of the District Superintendent in all City work.

Special Local allowances are recommended to all Inspectors serving in the City to compensate them for the more responsible work they will be called on to perform, and to meet the high cost of living in Bangalore. These allowances come to Rs 150/- a month.

from 12 to 24, which will be required for the proper supervision of the work of the new stations and outposts.

(c) The number of Sergeants being brought up from 34 to 40. This increase is required for the proper supervision of the extended beats both by day and night - which entail much extra work on this useful class of officers.

(d) . The total number of constables being increased from 278 to 352 which is virtually the same strength as in the Cantonment, vide statement attached- from which it will be seen that the area and population of the City and Cantonment are virtually the same. It is proposed to raise the pay of constables by Re 1/- all round - the grades being fixed at Rs. 8/-, 9/-, and 10/- instead of at Rs 7/-, 8/-, and 9/- as at present. This extra pay to constables is absolutely necessary if Government wish to keep up the sanctioned strength. Even now with the inadequate number of 278 men in all, we are constantly faced with the difficulty of recruitment; which leaves us often 30 to 40 constables below the present strength irrespective of casualties; this means that the work is badly done, or not done at all. The increase of pay proposed does not even equal what has been sanctioned for the Civil and Military Station, where the revised rates of pay are Rs 9/-, 10/-, 11/-, and 12/-.

(e) To a "City charge allowance of Rs 100/- per mensem" to be given to the District Superintendent of Police whoever he may be, or of whatever grade. In the Cantonment, which as I have before shown, is not larger in area, or population, and where the crime dealt with is in no way more important than in the City, a separate District Superintendent is employed, whose only other duty beyond his work in the Civil and Military Station, is the overlooking of the Railway Police. Our Superintendent on the other hand has in addition to the City a heavy District to look after - a District of the same size, and as important as the Districts of Kolar, Hassan or Tumkur. I think that it is nothing but fair that for the extra work and extra responsibilities of the City charge he should have

some compensation.

The Government have lately allowed special allowances to the Deputy Commissioner, and the Vice President of Rs 150/- and 100/- respectively, for the City work; while the Amildar still continues to draw the local allowance of Rs 50/-; the Superintendent, therefore, has an equal if not greater claim to an allowance.

In this connection I would call attention to letter No. 1706/185 dated 10th November 1897 in which the then Inspector General of Police recommended an allowance of Rs 100/- to the District Superintendent of Police, for charge of the City. (copy enclosed for information).

5. In conclusion I would very strongly impress on Government the fact, that unless the above schemes are carried out in their entirety, the work of the Police especially in the Bangalore City will not be efficient; and the public will have fair grounds for complaint, that their interests and safety are not being properly safe-guarded.

6. Our scheme for Bangalore City - if my proposals are accepted - will cost Rs 14,500/- less per annum than the present revised expenditure in the Civil and Military Station of Bangalore.

I have the honour to be,

Sir,

r most obedient servant,

pector General of Police.

NO: 1706/185. Office of the

Inspector General of Police in Mysore.

Dated Bangalore, 10th November 1897.

From

The Inspector General of Police in Mysore.

To

The Secretary to the Government of Mysore,

General and Revenue Departments.

Sir,

In forwarding herewith copy of a letter from Mr. Dunni Superintendent of Police of the Bangalore District, which I have held in abeyance for over 6 months, I have the honour to state that while work in the Bangalore District is quite as heavy as in the other Districts, the additional charge of a City like Bangalore entails on the Superintendent work and responsibilities which fairly entitle him to a special allowance. For a small are like the Kolar Gold Fields, Government have been pleased to provide a Superintendent with an allowance of Rs 60/- and 2 Inspectr with a maximum pay of Rs 200/- and 150/- each.

Again in area and population the Civil and Military Station is not much larger than the City but for the Police charg of the station there is highly paid District Superintendent with a salary of Rs 800/-, 3 Inspectors and 7 Sub Inspectors as per statement herewith sent.

I would under the above circumstances, request that Government will be pleased to sanction an allowance of Rs 100/- per mensem to the Superintendent of the Bangalore District for charge of the City.

" C O P Y "

I have &c.,

(Signed) K. Chandy.

For Inspector General of Police.

Inspr. Genl. of Police.

cup

M E M O R A N D U M .

The general features of the revision scheme are an increase in the number of Jamedars and a decrease in the number of Daffedars who it is hereafter proposed should not independently handle any case. With this object in view, the number of Jamedars has been increased by 12.

2. Three investigating centres have been proposed for the important Taluks of Bangalore and Kankanhally. The others have been each provided with two Investigating Centres in consideration of the exposed situation and of the peculiar circumstances influencing the preventive and detective branches of the Police work of these Taluks. The Sub-Taluk of Closepet is smaller in extent and the crime is also light. It has therefore been proposed that the Inspector should personally be in charge of a range supervising at the same time the work of a Jamedar in charge of another range. No additional Jamedar has therefore been proposed for Closepet.

4

3. Advantage has been taken of the

he re-arrangement to transfer Stations
rom places where they were no longer
equired to places which had risen in
mportance since the Police was first
rganised in the District and in other
ases the allocation has been recast.
hese retrenchments result in a sav
hich goes to reduce to an apprecia
xtent the cost of the increase of
trength proposed for the District
eserve.

. As good training in drill is very
ssential to a Policeman, a drill
nstructor is set apart for each Taluk on
s. 8 + Rs:2 allowance per mensem out of
ne allocated strength.

. The net result of all these Proposals
or the whole District is an increase of
s.28 per mensem. or Rs: 336/- per annum.

(Signed) L. Krishna Rao
District Superintendent of Police
8th June 1907. Bangalore.

Bangalore Taluk

At present the Taluk has two Head Stations and 9 Sub-Stations. Two more Sub-Stations Tharabanhally and Rajankunte have recently been added to the Taluk by Government Proceedings No R.15365/L.R.678-05-4 dated 3rd May 1906. The Taluk is a large one covering more than 500 Square Miles. Two Investigating Centres are not sufficient and it is proposed to have a new Investigating Centre at Jaraganhally with Sub-Stations at Madivala, Kengeri and Thalaghatpura attached. Each Centre will thus have about 150 Square Miles and as the country is rich and populous I consider 3 Centres necessary. The average number of crime for each Centre will be about 40 per annum.

The proposal to transfer the Station at Varthur to White-Fields has been long pending and as the settlement at White-Fields is daily growing in importance it is proposed that the Station at Varthur may be transferred there.

The Station at Basavangudi has been omitted in the proposal for the Taluk as it will be included

in

in the City Police.

The net result of these pr
is an increase of one Jamedar and a
decrease of one Daffedar and fourtee
constables or a net savings of Rs 85
per mensem or Rs 1020 per annum.

(Signed) L. Krishna Rao

District Superintendent of Polic
28th June 1907
Bangalore.

Anekal Taluk.

This is a small but an important Taluk, as it is surrounded on three sides by British Territories. It has one Head Station and 4 Sub-Stations.

2 of these Sub-Stations, Attibele and Hebgodi, guard the Bangalore-Salem High Road. It is proposed to convert these Sub-Stations into Out Posts with 5 constables each as the road is still an important one.

Sarjapur is a flourishing town with a large Mahomedan Population. It was the Head Quarters of the Taluk and an Investigating Centre may conveniently be located there to comprise the north-eastern half of the Taluk.

Net savings- Rs 13 per mensem or Rs 156 per annum.

(Signed) L. Krishna Rao

Dist. Superintendent of Police.

28th June 1907. Bangalore.

Dodaballapur Taluk.

This Taluk has an area of
:0 Square Miles with more than
)0 villages attached. The average
·ime is 41.

The Taluk had one Head Sta-
.on,6 Sub-Stations and two Out
)sts. One of the Sub-Stations
ıjankunte has recently been trans
)rred to the Bangalore Taluk.

The Northern parts are hilly
ıd the famous Ghatti Subramanya
; situated in this Taluk. Two
ıvestigating Centres are sufficie
)r this Taluk one at Dodaballapur
) comprise all the North-Eastern
)rtion and the other at Dodbela-
ıngala to take in all the Western
)rtion.

Hanaba was a turbulent villa
ith a large Mahomedan population
ıd an Out Post was therefore
stablished there. The village is
ıirly settled now and as it is
quidistant from Dodballapur as
)ll as Dodbelavangala being 4
lles from either it is proposed
) do away with it.

The Sub-Stations at Tubegeri

nto Out Posts. These are not on the
igh ways and will be sufficiently
anned by one 1st class constable and
wo 2nd class constables each. The Sub-
tation at Chennadevi is only 8 miles
rom Dodballapur and the next Station on
he road, Dobspet is also 8 miles. The
ountry is open and peaceful and an Out
ost to guard the road is all that is
ecessary.

The net result of these proposals is
n increase of one Jamedar and a decrease
f 4 Daffedars or a savings of Rs /0
er month or Rs /20 per annum.

(Signed) L. Krishna Rao

Dist. Superintendent of Police

28th June 1907) Bangalore.

Devanhally Taluk.

Budigere and Mudagurki have decreased in importance and Out-Posts with one 1st class constable and two 2nd class constables each will suffice.

As Jala has since become important it is proposed to make it an Investigating Centre with Budigere as an Out Post.

8

The net increase is Rs 4 per month or Rs 48 per annum.

(Signed) L. Krishna Rao

Dist. Superintendent of Police

28th June 1907. Bangalore.

Hosakota Taluk.

This is a fairly big Taluk covering over nearly 300 Square miles. The Madras Bangalore Railway passes through the south of the Taluk.

There are at present one Head Station, five Sub-Stations and one Out Post in the Taluk. As the Taluk is not one compact block, the greatest length being nearly 30 miles, it has been found necessary to propose two Investigating Centres one at Hoskota, one at Satyavar.

The Station at Nandagudi is too near to the next Police Station in the Kolar District, Jangamkote, being only 7 miles. The Station may therefore be shifted to Satyavara which may be made the Investigating Centre for the Northern parts of the Taluk. The Stations at Sulebeli and Muguvala may be converted into Out Posts and attached to this Centre.

Devangundi is a Railway Station and a Sub-station is necessary A small Out-Post at Kadugudi will be attached to it.

Hoskota

Hoskota Investigating Centre will have Bidarhally which will be retained as an Out-Post.

The net savings by these proposals is Rs 5 per month or Rs 60 per annum; but considering the great distances in the Taluk no further reduction can safely be recommended.

(Signed) L. Krishna Rao

Dist. Superintendent of Police,

28th June 1907) Bangalore.

Nelamangala Taluk

This Taluk extends from South-east to North-west with an average breadth of 8 miles. The Bangalore-Harihar road passes through the Taluk.

There are one Head Station and 6 Sub-stations. One of the Sub-stations Tharabanhally has been added to the Bangalore Taluk. There are at present 4 Stations guarding the high road viz., Madavar, Nelamangala, Begur and Dobspet. Owing to the advent of the Railway the traffic on the road has very much decreased and it is proposed to convert Madavar and Begur into Out-Posts.

10

Sondekoppa is a large village and though not on the high road, is an important village. The Sub-station may therefore be retained there.

Two Investigating Centres are proposed, one at Nelamangala to comprise the South-eastern half of the Taluk and the other at Tyamagondlu to take in the North-eastern half. Tyamagondlu is a large town with an active trade.

It

It was formerly the Head Quarters of the Taluk and a Head Station there is necessary.

The net result of these proposals is ~~an~~ increase of one Jamedar and a decrease of 2 Daffadars and 5 constables or a saving of Rs 18 per mensem or R 216 per annum.

(Signed) L. Krishna Rao

Dist. Superintendent of Police,

28th June 1907) Bangalore.

K. N. Rao 14/8/09.

Magady Taluk.

This is a big Taluk comprising more than 500 Square miles. It is a hilly jungly country and communication is difficult.

At present there are one Head Station and six Sub-stations in the Taluk. Of these Chakrabhavi Sub-station is only 6 miles from Magady and has very light crime. The sub-station may therefore be abolished.

The Sub-station at Bachenahatti is only 4 miles from Magady. It was established to guard the Hassan-Bangalore road which still retains importance. An Out-Post may therefore be retained there.

Thalikeri is only 4 miles from Kudur which becomes an Investigating Centre under the present proposal. An Out-Post may be retained there to guard the road.

As the Taluk is a big one, two rangestare necessary oneat... Magady to take in all the Southern half and the other Kudur to comprise the Northern half of the Taluk. Further reduction is not advisable

advisable as the Taluk is an important one.

The net savings in the Taluk is only ₹ 8 per mensem.

(Signed) L. Krishna Rao

Dist. Superintendent of Police,

28th June 1907) Bangalore.

Closepet Sub-Taluk.

There are at present one Head Station and two Sub-stations in the Taluk.

The Station at Vadavatta is too near Bidadi and the out-lying hilly parts are left unprotected. It is therefore proposed to transfer the Station to Jalamangala, a large village in the North-western portion of the Taluk. Vadavatta may be retained as an Out-Post with 2 constables. The Out-Post of Tenginakal, Channapatna Taluk, may be transferred to Kailancha in this Taluk.

12

As the Taluk is a small one it is not necessary to have 2 Jamadars. The Inspector will be in charge of the Closepet Centre and the Jamedar in charge of Bidadi Centre.

The net increase by these proposals is Rs 5 a month or Rs 60 per annum.

(Signed) L. Krishna Rao

Dist. Superintendent of Police

3th June 1907) Bangalore.

----o----

Channapatna Taluk.

There are at present one Head Station, 4 Sub-stations and one Out-Post. The Taluk is an important one with a large mahomeda population.

The Out-Post at Tenginakal may be advantageously added on to the Closepet Investigating Centre and removed to a point along the Closepet-Kankanhally road, where no Out-Post at present. Several villages attached to Tenginakal Out-Post have since been included in Closepet Range under the order of Government.

Two Investigating Centres one at Channapatna and the other at Akkur are proposed.

The net ~~savings~~ is Rs 6 per mensem or Rs 72 per annum.

(Signed) L. Krishna Rao

Dist. Superintendent of Police

28th June 1907

Bangalore.

Kankanhally Taluk.

This is a large and hilly Taluk covering over nearly 600 Square miles. Communication between the parts is difficult and at times wholly cut off by the swollen streams.

At present there are two ranges, one at Kankanhally and the other at Kodihally. There are 7 Sub-stations. Of these the Sub-station at Mulhalli is about 6 miles from Kodihally and may be abolished.

Three Investigating Centres are absolutely necessary for the Taluk, one at Kankanhalli, one at Kodihally, and the third at Harohalli. The Sub-station at Kaglipur is unnecessary, as very few cases are ever reported in these parts. It may therefore be converted into an Out-Post.

14

The net result of these proposals is a savings of Rs // per mensem or Rs /32 per annum.

(Signed) L. Krishna Rao

Dist. Superintendent of Police

28th June 1907

Bangalore.

District Reserve

At present almost the whole of the District Reserve is used up in detailing orderlies to the Deputy Commissioner, the Superintendent and the various Magistrates. For any emergency and even for ordinary duties, such as the Berasandra Military Camp, the services of the Special Reserve have to be requisitioned for. Duties such as escorting prisoners from Central Jail to any Court are at present assigned to the City Police and men are drawn away from their legitimate duties and great inconvenience is caused. To obviate all this a large increase in the District Reserve has been proposed. Of the 50 constables proposed for the District Reserve so many as 20 are absorbed in orderly duty, 5 constables are at present doing duty as writers in the office and only 25 constables will be left to attend to the numerous requisitions from the Central Jail for escort duty and for miscellaneous duties. Of the 8 Daffedars proposed 2 will be orderly Daffedars, one will be in charge of the Store and will work in the office and one who is also to be the Drill Instructor will be in charge

of the School. The remainder will be detailed to officer the escort parties.

The Gang revision work in the District has already proceeded a good way and the History Sheets of most of the permanent Gangs in the District have been written up. The work of collating and reducing to order the various accounts written by the Special duty Daffedars and the work of permanently recording in revised Gang Register the result of their labours has now to be taken in hand and at fist at least one Jamedar and two Daffedars (all picked men) will be necessary to aid the Gang Inspector.

When the Gang work is complete it will remain for the office to continue to record carefully the movements and further history of the Gangs and I have therefore proposed one Jamedar permanently for Gang duty. The other will attend to the service registers and the usual duties of a Reserve Jamedar. The third will be in charge of the stores, the work being specially heavy in this District. The fourth will be required to be always ready for relieving any Inspector who wishes to go on leave and for other office and special duties.

(Signed) L. Krishna Rao
Dist. Superintendent of Police,
Bangalore.

"Copy"

Inspector General of Police.

1907-08.

Proposals for the reorganization and redistribution of the City Police Force, Bangalore.

Memorandum.

The sanctioned scale for the City of Bangalore at present is :-

1.	Chief Inspector.
2	Inspectors.
12	Head constables.
34	Sergeants.
278	constables.

and these are at present distributed as follows:-

NO:	Stations or Ranges.	Chief Cons.: or Insprs.	Head Cons.	Sergts	Cons.
1.	Central		3	8	44
2.	Fort-Kalaspalya		2	5	44
3.	Chamarajpet-Mysore Road Outpost. Gavipur O.P.		1	4	44
4.	Kengerigate-Upparpet		2	5	44
5.	Malleswaram		1	3	14
6	High Ground-Upparhalli		2	5	44
7.	Yelahanka gate and Ulsoorgate.		1	4	44

2. All the beats in the City were revised 2 years ago under the orders of the Inspector General of Police and each station or range has at present 4 beats. The A.B.C. system of beat introduced into the City requires 32 constables for each station or range to work up the 4 beats at 8 constabes per beat. Allowing 12 men for miscellaneous duties, the strength of each station or range will be 44 constables, 5 Sergeants are necessary, 4 to officer the sections and one for station duty and outposts. The work in the city requires the presence of a Head constable in each station throughout the day and

night and 3 Head constables are required in each station to work by turns. The allocation necessary for the satisfactory discharge of these duties is 3 Head constables, 5 Sergeants and 44 constables for each station or range.

Basavangudi & Malleswaram.

3. Basavangudi extension is at present included in the Bangalore Taluk. The necessity for including it in the City Police is obvious. The sanctioned strength is proposed to be increased in the interests of public safety as the present makeshift arrangement under which a few extra men drawn from the Sub stations of the District as well as from the adjoining stations of the city are posted to Basavangudi, is not found to give satisfaction. This proposal aims at rendering the system of Beat work uniform throughout the City embracing as it now does, the two large extensions of Basavangudi and Malleswaram. The Municipal limits are further proposed to be extended in the direction of the Imperial Service Lines, and when this proposal receives the sanction of Government in due course the sphere of Police work will be necessarily extended so as to necessitate the location of another outpost near Munireddipalya.

17

Chief constables.

4. Two Chief constables were sanctioned for the city in 1881, 26 years ago when Bangalore City had not attained its present dimensions. Now that extensions have sprung up all round it is impossible for two Chief constables to manage with efficiency, the work of their present ranges. If Basavangudi and Malleswaram and Munireddipalyam are also added on to the City limits the need for additional Inspectors becomes greater than ever. Four Circles are therefore proposed.

A or Fort Division to include the limits of the present Central station, Kengeri gate, Upparpet and Yelahanka Stations.

B or High Ground Division to include Munireddipalyam,

Prosecuting Inspector.

5. Prosecution.- On an average 3 to 4 cases of the City (not to speak of the several petty cases) are posted for hearing before the City Magistrate every day and most of the - - - cases are contested in as much as lawyers are invariably engaged for defence even in the simplest of cases. The District Prosecuting Inspector has been ordered to attend to the prosecution of all cases in the Courts of the 1st class Magistrates and he has to attend two Courts in Bangalore and one in Closepet and a third will shortly be started at Dodballapur. His time is fully taken up with the District cases and he cannot therefore attend the City Magistrate's Court.The Chief constables of the City have in consequence been ordered to attend to the Prosecution of cases belonging to their respective ranges by a mutual arrangement. This entails five hours attendance at the City Magistrate's Court every day, as a case may be called up any time, and as a result the other duties connected with investigation and detection of the Chief constables ranges have to be neglected. I would suggest that a full time Inspector for Court duty in the city cases may be kindly sanctioned as this would save much unnecessary waiting on the part of the Chief constables and set them free to attend to the investigation and detectitn of crime.

Note.- The City Magistrate in his letter No.646 dated 3o-5-07 brings to notice the unsatisfactory state of the prosecuting agency in his Court & requests that the Govt may be asked to appoint an intelligent Prosecuting Inspr" solely for his Court.

City Inspector.

6. The City Chief Inspector will as at present continue to supervise the work of the Divisional Inspectors and in fact the work of the whole staff in the City. He will personally conduct the investigation of important heinous crime and will himself conduct prosecution in very important cases. As he has four Inspectors under his control and is responsible for the work of the entire City Police, I submit that he may be given a corresponding status and that his pay may be fixed at Rs 2oo-10-25o

Palace, the Imperial Service Lines, Seshadripuram, Guttahalli, Malleswaram and Pindracherry.

C or Kalaspalya Division to include Ulsoorgate, Kalas -palyam. Lalbagh, Mavalli and Upparhalli.

D or Basavangudi Division to include Basavangudi, Chamarajpet, Krishnarajpet (When formed), Gavipur and Mysore Road outpost.

The existing and proposed scales are noted hereunder.

No.	Stations	Inspectors	Head Constables	Sergeants	Constables	Division	Stations	Inspectors	Head Constables	Sergeants	Constables
1	Central	1	3	8	44	A	Yelahanka		1	5-	44
2	Kemperigate	1	2	5-	44		Kemperigate		1	5-	44
							Vidyapeet- (Proposed)		3	5-	44
3	High Grounds	1	2	5-	44	B.	High Grounds		1	5-	44
4	Malleswaram	-	1	3	14		Malleswaram		-	3	14
							Seshadripuram				
							Pittahalli				
							Chamarajpet				
5	Kalaspalya	-	2	5-	44	C.	Kalaspalya		1	3	5- 44
6	Ulsoorgate	-	1	4	44		Ulsoorgate		-	3	5- 44
							Lalbagh				
							Mavalli & Upparhalli				
7	Basavangudi	-	1 * (Divisional)	-	7 *	D.	Krishnarajpet (when formed)		1	3	5- 44
8	Chamarajpet	-	1	4	44		Basavangudi				
							Gavipur				
							Chamarajpet		-	3	5- 44
							Gavipur and Mysore Road outpost				
	Total	3	13	34	285	4			6	24	40 358

* The establishment of the Basavangudi Station is now borne on the Palace Scale.

Pay of constables.

7. The pay of the constables in the City at present is far too low considering the expense incidental to a city life. The Indian Police Commission have arrived at the conclusion that the bare "living wage" for a constable cannot be less than Rs 8/- per month in any Province. The demand for labour in Bangalore is so great that it is impossible to get the proper kind of recruits for even this pay. I would therefore propose increasing the pay of constables by 1 Rupee all round. The pay will then be Rs 10, 9, and 8 for the three grades of constal

At present the subordinate City Police are grade(follows:-

Head constables	1st grade ---	Rs	25 + 8
Do	2nd do -----"		20 + 5
Do	3rd do ----- "		16 + 5 (now made class Ser(
Sergeants	1st grade -----"		14/-
Do	2nd do -- "		12/-
Do	3rd do ---- "		10/-
Constables	1st grade ---- "		9/-
do	2nd do ------ "		8/-
do	3rd do ---- "		7/-

I would propose redistributing them as follows:-

Head Constables	1st grade	Rs	25 + 8
Do	2nd do	"	20 + 8
Sergeants	1st do	"	16/-
Do	2nd do	"	14/-
Do	3rd do	"	12/-
Constables	1st do	"	10/-
do	2nd do	"	9/-
do	3rd do	"	8/-

and the grades of officers in the City will then coincide with the corresponding grades of Jamedars and Duffedars in the District and they can be changed at any time.

The Detective Staff.

8. This was organized in May last, with one Head Constable and 7 constables as a tentative measure. No separate staff was sanctioned by Government. At present a few men have been drawn for this duty from the several stations. It was found that the Head constables in charge of stations were unable to cope with the professionals who quickly disappeared with their booty and in the discharge of their preventive duties, were often unable to pursue a scent, while it was still fresh. It was hoped that select body of men with no routine work to hamper them, would be able to watch and study the ways and movements of criminals, with surer chances of success. The experiment made in this direction, has amply fulfilled the expectations formed at the commencement. The small number of detectives now in the City, have taken part in all the important cases of the City and the valuable clues furnished by them led to the conviction of several notorious professional criminals like Subraya Pantalu. In the cow killing cases, the series of thefts in the High Ground limits and in many other cases, the detectives have acquitted themselves very well and it may safely be predicted that a trained staff of picked men of character, aptitude and intelligence would prove a useful auxiliary to the Regular Police-Force of the City in turning out better quality of work. Detectives should watch all over the town and watch the conduct of Known Depredators, suspects, suspicious fresh arrivals and must have thorough knowledge of men and their character. The Detective staff required for the City may be roughly fixed at:-

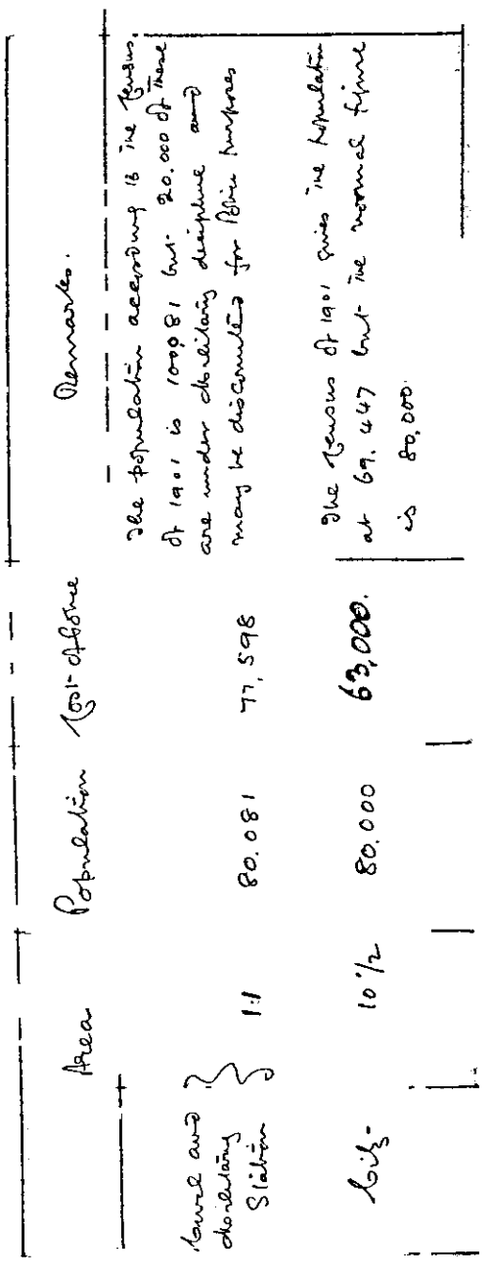
1. Inspector.
2 Head constables.
4 Sergeants
and 25 men.

But while the extensions are fully formed up, the work of the Detective branch can be attended to by one of the Division-

Divisional Inspectors aided by select men from the stations as at present. The proposal may therefore be deferred;

9. Considering how rapidly Bangalore City is growing in dimensions and rising in importance, the question of additional cost ought not to be allowed to stand in the way of improving the tone, the morale and the efficiency of the regular and the detective branches of the City Police Force.

10. The statement ~~in the margin shows~~ showing below the area, population and cost of Police of the City and the Civil and Military Station Bangalore:—



Remarks.
The population according to the Census of 1901 is 1,09,081 but 20,000 of these are under detention and many be discounted for Police purposes
The Census of 1901 gives the population at 69,447 but the normal figure is 80,000
Population 1901 - Approx.
Area
Cost
Civil and Military Station
1:1
10½
80,081
77,598
80,000
63,000.

Statement A attached shows comparatively the strength of the Civil and Military Station Police and the Force proposed for the City.

It will be seen that while the City is slightly smaller in area, the density of population is nearly the same as that of the Civil and Military Station. Nevertheless, the cost of the Police proposed for the City falls below 19 per cent of that of the Civil and Military station. The proposals have been worked out with a strict view to economy and in the interests of public safety, the reforms proposed cannot without serious detriment, be deferred any longe

R. Cubbon
For Inspector General of Police

Dated 25th December 1907.

T. Kantaraj Urs Esquire, B.A.,
Deputy Commissioner,
Mysore District.

F. E. C. Carr Esquire,
Inspector General of Police
in Mysore.

With reference to your letter No. 8613/669 dated 6-6-07 to the District Superintendent of Police calling for the submission of fresh proposals in connection with the Investigation Centres, I have the honor to enclose herein the several statements showing the redistribution of the Force. I generally agree with old proposals but with the following modifications.

49

(1) In the Hergadadevankote Taluk, Kakankote is too important a place to be reduced to an Outpost, as, apart from the fact that it is a place always frequented by important personages for Shikar, and therefore requiring a responsible officer on the spot, there would be no officer to attend to emergencies between Antarasante and Bavali, a distance of 20½ miles. I would therefore propose the addition of a Duffedar to the station as the proposdd strength of three constables does not admit of any reduction under that head.

(2) In the Hunsur Taluk, Gavadagere is an important place with a lot of factions. Besides this, the traffic

between

FIRST PROOF
Read by .....
Dated .....

between Nunsur and Yedatore has often been molested by criminal classes on that highway, and hence the presence of a Duffedar there, is very desirable. I would therefore retain Gavadagere as a Sub station substituting a Duffedar for the 1st class constable in the proposed statement entailing thereby an excess of only Rs 4/-

(3) Similarly the road between Mysore and T Narasipur is also an important one, and as several offences have been committed on this road which is 20½ miles long, Keelanpur deserves to be retained as a sub station. But here again to save cost, a Duffedar may be substituted for the 1st class constable in the proposed statement.

(4) In the T.Narasipur Taluk Rangasamudra is an important and big village and has no Police station or Out-Post within a distance of 7 or 8 miles on this side, of the river Cauvery. It is also a troublesome place. I would therefore propose an Outpost with 2 constables in Rangasamudram.

(5) In the Nanjangud Taluk a new Outpost at Kalale, as per your instructions has also been provided for with 2 IIIrd class constables.

(6) In the Gundlapet Taluk in the old proposals Hanumantarayangudi has been shown as a Head station Haddur as a Sub Station and Bandipur as an Outpost. But Haddur is the Centre of a number of important and prosperous villages and being more healthy and possessing greater water convenience than Hanumantharayangudi, it has also the further advantage of possessing a good set of lines for the men. By making this the Head station not only would the health of the men be better maintained but it would save the cost of constructing fresh lines at Hanumantharayangudi. I would therefore propose Haddur as a Head Station Hanumantharayangudi which is only 7½ miles from Gundlepet as an Out post and retain Bandipur as a Sub station taking

the

FIRST PROOF
Read by ...
Issued ...

The distance between Gundlapet and Kekkanhalla, Nanjipur comes in very conveniently as a sub station.

With these modifications the proposals may be accepted. Out of the 1st class constables allotted to the Taluks in the new proposals, provision has been made for a drill instructor in each Taluk, with an extra allowance of Rs. 2/- In the District Reserve 2 1st class Duffedars have been proposed one of whom will be set apart as drill Instructor. The total cost of the strength thus altered in the proposals comes to Rs. 4251 ~~the same as the existing cost.~~ It has not been possible to effect any savings consistant with efficiency and the actual requirements.

I have &c.

Sd/- Md. Zahiruddin Sahib

For Deputy Commissioner

Mysore District.

"C O P Y"

For Inspector General of Police.

Inspector General of Police

7

No. 568. Dated 27th November 1907.

From,

A.C. Basavaraja Urs, Esquire,
Assistant Superintendent of Police
French Rocks Circle.

To,

E. C. Carr Esquire,
Inspector General of Police

Sir,

I have the honor to submit herewith proposals for the redistribution and reallocation of the Police Force in the French Rocks Circle.

Proposition statements showing the existing and Proposed Investigation Centres, Sub Stations and Out-Posts with their allocations are herewith attached. The proposed scheme if sanctioned will result in a saving in cost of ₹ 77 per mensem or ₹ 924 per annum, and in men of 11 First class Constables 9 Second Class Constables and 15 Duffedars. 71

In the proposed scheme, to every Taluk, there are given two investigation Centres except to French Rocks and Sreerangapatam, which by reason of their small area, are given only one Centre each.

This Circle is the Head Quarters of a First class Magistrate, having jurisdiction over five Taluks and as such there is a lock-up here with many undertrial prisoner and as the French Rocks Sub Taluk Police detail men for guarding them, frequent complaints are received from them regarding

regarding want of men. The proposed increase in the District Reserve is intended to give a full time Establishment for the special work.

There is no regular Treasury at the Head Quarters with Barr Sepoys for guarding it. The Police cash box and the court box containing properties relating to cases are guarded by the Reserve Police only.

The increased strength proposed for the reserve is intended to meet the above duties and also to meet the casualties, to carry out the duties of escort to prisoners to meet emergencies and other very frequent special duties in the Division in connection with the State Visits of the Governor-General Governors, Chiefs as well as the Royalties to the ruins of Sreerangapatam and the falls at Sivasamudram.

72

A Jamedar also is proposed for the Reserve to attend to the prosecution of ordinary cases in Courts, to the various extra duties and relieve the Head Quarter Inspector of many minor duties which take up much of his ti

Like the Kadur District this Circle contains five Taluks and a Sub Taluk, whereas Kadur District Polic Office contains the full establishment, this circle offic is wanting in a Head Munshi on ₹ 40/- and a full time pro secuting Inspector. The need for both is keenly felt owin to pressure of work and to cope with the increase of work. If no Head Munshi on ₹ 40/- could be sanctioned out of th savings of ₹ 77/- per mensem at least an additional seco Grade Jamedar may be given out of the proposed savings fo office work for detection and Investigation work when required and to meet casualties.

The Out-Posts proposed in various Taluks are i tended to safe guard the heavy road traffic.

not entail additional cost to Government.

The abolition of the stations of Gajjagere and Nidagatta on the Bangalore Mysore Road and of Sivahally which is only six miles from Mandya and in the interior of the same Taluk is also proposed.

Before the extension of Railway from Bangalore to Mysore, there was a regualr heavy cart traffic on the road, but recently the same has gone down considerably, the distance of Bangalore-Mysore Road within the limits of this Circle is about 42 miles and there are seven stations on the road belonging to this Circle. Nidaghatta station is the first from Bangalore side and is only four miles from Maddur and eight miles from Channapatna. This part of the road can be guarded by two constables, one from Maddur and one from Channapatna meeting midway, with the help of two Ookad watchmen. Gajjalagere is the third station on the same road and is four miles from Maddur and eight miles from Mandya and similarly two constables one from Maddur and one from Mandya meeting midway and with the help of two Ookad watchmen can patrol the distance. The other stations Lingaraja Chatra, Ganangur on the same road have been proposed to be converted into Out-Posts with a small Police force to guard on either side of the road. The present station at Sivahalli is only six miles from Mandya and is not on any of the high roads. The constables of Mandya and Basaral can patrol the villages attached to this station and it is also proposed to convert this station into an Ookad.

The separate existance with a Duffedar of the Town station of Malavalli is proposed to be done away with as the Kasaba Town can be managed by the Police Officers and men available at the Head Quarters of the Taluk, the strength of the Police at Head Quarters having been

commensurately

surately increased in the proposal.

It is also proposed to convert Nagathihalli station of the Nagamangala Taluk into an Out-Post as it is between Kelligere and Hirisava stations on the road to Channapatna.

The Sub Station of Bukankere in Krishnarajpat Taluk, is proposed to be converted into an Out-Post, as it is only five miles from Chinkurali the proposed Investigation Centre.

The Sub Stations of Honakere on the French Rocks Nagamangala road and of Damadahalli on the French Rocks-Chinkurli road, are proposed to be converted into Out-Posts as there is nothing very important with them except guarding the road traffic.

Kastur station which is midway between Huliyandurga station of the Tumkur District and Maddur is proposed to be converted into an Out-Post as the road on either side may be watched by the constables.

Hottikatta station is proposed as an Investigation Centre as it is very near to Bluff on the road, and Boppagundanapura may be made an Out-Post being only five miles from Hottikatta across country and seven miles by road.

Kirawal which is only nine miles from Malavalli and one mile away from Malavalli-Bannur road, is also proposed to be converted into an Outpost for the same reason.

Belur and Paschimavahini are proposed to be converted into Outposts again.

I have &c.

OFFICE OF THE INSPECTOR-GENERAL OF POLICE IN MYSORE,

No. 7139/714

Dated Bangalore, 18th May 1908.

J2934

FROM

D. Devaraj Urs Esquire,
Inspector-General of Police in Mysore.

To

C. S. Balasundaram Iyer Esq., B.A.,
Offg. *Secretary to the Government of H. H. the Maharaja of Mysore,*
General and Revenue Departments.

SIR,

Adverting to your letter No. J 3160/Police 189-07-2, dated 16th April 1908, pointing out that proposals regarding the re-distribution and re-allocation of the Police Force in the Mysore District and City have not been received, I have the honour to state that the reference will be replied to when I visit Mysore next month.

I have the honour to be,

Sir,

Your most obedient servant,

Inspector General of Police.

OFFICE OF THE
INSPECTOR-GENERAL OF POLICE IN MYSORE.
Camp Mysore,
Dated ~~Bangalore~~ 7 December *1908*.

From

D. Devaraj Urs Esquire,
Inspector-General of Police in Mysore.

To

K. S. Chandrasekara Aiyar Esq., B.A., B.L.,
Secretary to the Government of H. H. the Maharaja of Mysore,
General and Revenue Departments.

Sir,

In continuation of my letter No. 7139/714, dated 18th May 1908, I have the honour to state, that the revision of the Police for the Cities of Bangalore and Mysore, has been engaging my attention for some time past. I regret the delay in the submission of this report, as I had to bestow some time for the consideration of the question, being as it is a very important one. As has already been stated by Mr. Carr, it indeed forms the most important part of the scheme for the re-organization of the Police for the whole Province. I agree with his proposals in the main, except in one or two points noted below; which are, in my opinion, very necessary, as Bangalore is becoming a more and more important centre of activity, with the extensions growing larger every day.

2. In speaking of the Presidency Towns, the Police Commission said " Large Cities must always be important

Gen. and Rev. Depts.

Dated 7

Despatched 7 December 1908

Received

General No. 3067
314

Enclosure No. 4 + 3 maps

Submits proposals for the revision of the Police of the Bangalore + Mysore Districts.

" foci of crime and a favourite retreat for dangerous criminals " and this a priori conclusion is confirmed by the evidence be- " fore the Commission." Bangalore and Mysore are our Presidency Towns and as such the Police Scheme for the Cities, should, of course, be of a special nature, though on a somewhat smaller scale compared with the large Cities like Bombay, Madras &c.

3.(a) For the Bangalore City, I beg to propose, and that afte careful consideration, that it is high time that the Police shoul have an independent control and that its constabulary should be given a higher rate of pay.

91

(b) At present, the District Superintendent of Police, Bangalore, has, in addition to the District work, the control of the City Police as well. So long as this continues, I am afraid to think, and there is every reason to believe, that either the one or the other ought to suffer, so far at least as supervision is concerned - not to speak of the directing of investigation. The District work, by itself, is very heavy and more than ample for one Superintendent. I would, therefore, very strongly urge the appointment of a Superintendent, or an Assistant Superintendent, who should pay his undivided attention to the City itself. The Civil and Military Station, whose area and popu -lation are almost the same as that of the Bangalore City, has a full-timed and highly paid Superintendent for itself, and a

rs:. In- rs:,

costing Rs 77,598/- per annum, whereas the present scale of the Bangalore City Police consists of officers and men as per margin@ and costs only Rs 39,642/- per annum. The appointment, therefore of a full-timed officer of the status of a Superintendent, or an Assistant Superintendent to the City, is, I believe, a very necessary step and a pressing one too.

@ 3 Inspectors.
6 Head constables.
40 Sergeants.
& 278 men.

(c) With the appointment of such an officer, I would, however, recommend the abolition of the appointment of the Chief Inspector which would then become superfluous. He is, though highly paid, without the rank and status of a Gazetted Officer, and is nothing more than an ordinary Inspector, except that he gets higher pay. He has under him 2 or more Inspectors who, for the sake of convenience, are styled as Division Inspectors. This arrangement, I need hardly say, is not conducive to discipline. I therefore, propose to do away with the appointment of Chief Inspector. I would have the City divided into 4 Divisions under 4 independent Inspectors and above them all, a Superintendent, or an Assistant Superintendent, solely for the City work.

(d) I would not also recommend the grant of local allowance to the Superintendent and the City Inspectors which Mr. Carr has done. In the Civil and Military Station and in the Presidency Towns they are not given any local allowances except under exceptional circumstances. It is enough if Inspectors of higher grades are posted to the City, and these get a higher rate of horse allowance

(e) I would next strongly urge, upon Government, the absolute necessity to have our men given the same rates of pay as is in the Civil and Military Station, where they have 4 grades - viz. ₹ 9/-, 10/-, 11/-, and 12/-. But for the present, for the Bangalore City, I would only propose 3 grades - viz. ₹ 9/-, 10/- and 11/-. I need hardly dwell at any length on the absolute necessity for this step. The cost of living has become very high, consequent on the tremendous increase in the price of even the barest necessaries. The conditions of service, have also become very exacting with the increased efficiency of the supervising staff. If in these circumstances, better pay to men, is not given, the best available men will be attracted to the Civil and Military Station, and we shall have only men of the inferior sort This, it need not be said, will in the long run, tell seriously upon the efficiency of the Force. Moreover, in the City, even th day labourers get better wages - viz ₹ 10/- and above, and ther -fore, there is no attraction for Police service as it is.

4. Financially, the difference between Mr. Carr's proposa and mine is this:-

I would have 5 Inspectors against 6 of his - 4 for the 4 Divisions into which the City is proposed to be divided and on for the prosecution work: over these, there will be a Superintendent whose average pay may be estimated at ₹ 350/- per mense

An increase of one rupee all round to the pay of the constabulary over that proposed by Mr. Carr, entails an additional cost of ₹352, per mensem; as against this increase, there will be a saving as shown below. By the abolition of the post of Chief Inspector and doing away with the grant of local allowances to the Superintendent and to the Division Inspectors which Mr. Carr has recommended, ther will be a saving of ₹ 470/- per mensem. If from this sum, the sum of ₹352/- being the increase by enhancing the pay of the constable be deducted, the difference of ₹ 118/- will go towards meeting a portion of the pay of the Superintendent proposed to be appointed for the City. Thus the above proposal of mine will only entail an additional cost of ₹232/- per mensem or ₹2,784/- per annum, which can be partly covered by the savings of ₹ 142-8-0 per mensem, or ₹ 1,710/- per annum, now proposed to be effected in the Mysore Dis trict. The extra cost of ₹1,074/- per annum, I trust, the Govern- ment will not consider a heavy charge, considering the degree of ef ciency likely to be infused into all the grades of the Force.

5. Mysore City.-

(a) The same remarks as in the case of the District Super intendent of Police, Bangalore District, also apply with equal Forc to the District Superintendent of Police, Mysore. As it is, Distri Superintendent of Police, Mysore, for similar reasons, cannot exerc closer supervision over the work of the City Police. I would, ther propose a full-timed Assistant Superintendent of Police for the Cit

doing away with the appointment of Chief Inspector and retaining the 3 Division Inspectors who will work under the City Assistant Superintendent of Police direct.

(b) To effect this desirable change, I propose abolishing the French Rocks Sub Division and bringing it under the control of the District Superintendent of Police, Mysore. The Assistant Superintendent of Police, French Rocks, will then be available for the Mysore City, of which he will be in sole charge. The Deputy Commissioner of Mysore who was consulted in the matter, says in his D.O. dated 2nd December 1908, as follows :- 93

" I quite agree with you in thinking that the French Rocks
" Circle should cease to exist as an independent unit and be ab-
" sorbed in the District proper, strengthening the D.S.P.'s office
" by giving him at least a couple of hands more to cope with the
" additional work.

" I think the Mysore City is as important as Bangalore
" if not more, for more than one reason of which you are doubtless
" aware personally. So, I should propose that the City should be
" in charge of an Assistant Superintendent of Police and not a
" Probationary Assistant Superintendent of Police. A Probationary
" Assistant Superintendent of Police may be attached to the D.S.P's
" office to learn work and to look after the current duties when
" the D.S.P. is absent from Head Quarters."

Superintendents in the Department and I propose attaching one o: these permanently to the Mysore District, to assist the District Superintendent of Police. With a full-timed Assistant Superintendent of Police for the City and with a Probationary Assistant Superintendent of Police permanently attached to his District for trainin the District Superintendent of Police, will, I am sure, find it much easier to manage the District work more thoroughly and efficiently.

(d) The above proposal, involves no extra expenditure but result in a saving of ₹ 207-8-0 per mensem being the average pay and allowance of the Chief Inspector proposed to be done away with.

6 (a) The present strength of the Police for the Mysore City is quite adequate and requires no addition or alteration beyond the appointment of a Prosecuting Inspector solely for the City and the grant of horse allowances to each of the Division Inspectors at ₹ 20/- per mensem. I forward herewith for the information of Government copies of the marginally noted letters received from the Deputy Commissioner in the matter. I concur with him in thinking that a Prosecuting Inspector for the City, is quite indispensable and I accordingly propose the appointment of an Inspector on ₹ 60/- per mensem.

@ Letters Nos: A and 127, dated 10th and 29th Augu 1908, respect ively.

(b) As pointed out by the Deputy Commissioner, it is very ne cessary, that all the Division Inspectors of the City, should be required to maintain horses, as otherwise they cannot perform the duties satisfactorily. Further, under Government Proceedings No.

dated 4th January 1905 all Inspectors are bound to maintain serviceable horses and I now propose to bring them under this rule and hence I have recommended the grant of horse allowance to each of them. The above proposals involve an additional cost of ₹ 120/- per mensem, which can be met from ₹ 207-8-0 savings calculated to accrue by the abolition of the appointment of Chief Inspector .

With the abolition of the French Rocks Circle, there will be a savings of ₹ 125/- @ the cost of the marginally noted Office Establishment attached to the Circle. The

@

1 Head Quarter Inspector	₹ 55/-.
1 Head Munshi	30/-.
1 Deputy Munshi	25/-.
1 3rd Munshi	15/-.
Total	₹ 125/-.

total savings in the Mysore District according to the revision is ₹ 212-8-0, i.e., ₹ 125/-under the abolition of the French Rocks Circle and ₹ 87-8-0 under the Mysore City Force due to the abolition of the post of Chief Inspector.

94

(c) As proposed by the Deputy Commissioner, Mysore District the Office Establishment of the District Superintendent of Police, Mysore, may be strengthened by two hands of ₹ 25/- and 15/- per mensem. Also a clerk on ₹ 30/- may be given to the Assistant Superintendent of Police for Mysore City. These two items of expenditure come to ₹ 70/- and leave a balance of ₹ 142-8-0 which will be available for being utilized towards the extra expenditure which the Government will have to incur by the appointment of a

in expenditure will be Rs: 1,074/- per annum.

The maps showing the Investigation Centre Ranges for the Districts of Bangalore and Mysore including French Rocks together with the proposition statements, embodying the changes, are herewith forwarded.

8. I request that you will be so good as to obtain the early sanction of Government to the proposals.

I have the honour to be,

Sir,

Your most obedient servant,

Inspector-General of Police.

Inspector General of Po

No. A. Dated 10 - 8 - 1908.

From

A. Subramanya Iyer Esq., B.A.,

Offg. Deputy Commissioner, Mysore District.

To

D. Devaraj Urs Esquire,

Inspector - General of Police in Mysore.

Sir,

I have the honour to bring to your notice the serious inconvenience that has often been caused for want of another Prosecuting officer in the District. The present Prosecuting Inspector, it may be observed from the figures noted in the margin, finds it impossible to cope with the increasing work in this direction, in the City as well as in the Distri proper. There have been 4 Sub Division Courts in the District and a City 1st class Magistrate's Court, besides the District Magistrate's Court There has been, as shown in the margin, an averag of 350 cases charge shee -ed every year in the District proper and 120 in the City. The averag number of cases that the Prosecuting Inspector has been able to conduct has been 100 per year, the other 370 cases go almost unprepresen

istrict Proper.-

in the Court or badly represented, and for want of proper strong representation, many good cases fall through especially when the adverse side is strongly represented by qualified Advocates. Besid the fact that one officer finds it quite impossible to meet the eve increasing work of prosecution, I beg to submit that the Sub Divisi Courts are not all in one place, and as the Prosecuting ~~Inspector~~ Officer has often to go to Nanjangud and other places for prosecution, the important cases pending in the ~~small~~ several courts in Mysore City invariably suffer. To add to all these, there is the French Rocks Sub Division whose statistics are not included in the marginal figures, but nevertheless cases from Taluks of that Sub Division are not infrequently sent for prosecution at Mysore and call for th aid of the Prosecuting Inspector in the work of prosecution. To obviate all this difficulty, I would beg to submit for favourable consideration, the urgent necessity there is to have one Prosecutin officer for the City and another for the District proper including the French Rocks Sub Division. If each of these 2 officers attend to about 100 cases on the average, then I believe the prosecution work will be able to produce a far more satisfactory result than at present. Considering the increasing quantity of work in the City and the nature of opposition the prosecution is invariably expected to meet with here, I pray the favour of your moving the Government, at an early date, for the sanction of an additional Prosecuting Inspector for the Mysore District.

I have &c.,

(Sd) Md. Zahiruddin Meccai.

For Deputy Commissioner,

Mysore District.

" C O P Y "

Inspector - General of Police.

No. 127. Dated 29 - 8 - 1908.

From

M. Kantaraj Urs Esq., B.A.,
Deputy Commissioner, Mysore District.

To

The Inspector General of Police in Mysore.

Sir,

I have the honour to bring to your notice the fact tha the Police officers of the City (except the Chief Inspector) are not in receipt of any horse allowance and therefore they do not maintain any horse.

This often causes a considerable difficulty and on urgent occasions work suffers seriously for want of means for quick despatch of business. On the occasion of the visit His Highness the Gaikwar of Baroda during the last year, it may be remembered that the Police officers had to contend with manifold disadvantages in keeping order and supervising the work of the subordinate Police the want of a proper means of conveyance was most keeny felt and on this account the work of the Divisional Inspector Hanumanta Naidu was found to be unsatisfactory. A reference to the file of correspondence on this subject would throw light and may not fail to convince you that the want of conveyance allowance to the City Police Officers is real and requires to be supplied as early as possible for the efficient discharge of Police duties which are always emergent.

Under these circumstances, I would request the favour of your moving the Government and obtaining sanction for an adequate allowance to the City Head constables and Divisional Inspectors to enable them to maintain suitable horses for the efficient discharge of not only of their ordinary duties, but also on special occasions of annual festivities in the Palace and on

emergent occasions such as the visit of distinguished visitors and Royal Personages.

I have &c.,

(Sd) M. Kantaraj Urs.

Deputy Commissioner,

Mysore District.

SUBJECT

the proposals already submitted
regarding the Police Force of the Bangalore
& Mysore Cities.

[Print in extenso with enclosures] J. H W

Order Nemni — J. 3381-90/Police 1897-98-
9 4/5/07

The formation of territorial
circles for the remaining 6 Districts
of the State having already been sanc-
tioned by Govt in Proc. No. J 2968-77/Pol
dated 4-02-98 the then Marquis de, the
late, the late Inspr. Genl of Police
submitted a scheme for the re-
distribution & redistribution of the Police
Forces and for the formation of territo-
rial Circles in the Bangalore &
Mysore Districts with separate proposals
in the Bangalore & Mysore Cities. His
Lordship the present Inspr. Genl
of Police in the proposals for his predecessor
so far as they relate to the Bangalore
Mysore Districts are concurred and
has submitted modified proposals for
the Bangalore & Mysore Cities which
are pleased to sanction the proposals involving an
additional recurring Expenditure of Rs 1,14,4 per annum for
as they relate to the Districts

G.R.S. 27]

GENERAL AND REVENUE SECRETARIAT.

(*Continuation Sheet draft form.*)

as detailed in the letter read above so far as ~~regards~~ the Bangalore & Mysore districts are concerned involving an additional recurring expenditure of Rs 144 per annum. The scheme will ~~be~~ come into operation will effect from the beginning of the next official year. Due provision should be ~~made~~ for the Extra Expenditure ~~here~~ in the next and future budgets. ~~Separate~~ The proposals regarding the cities of Bangalore & Mysore are reserved for further consideration & separate orders thereon will be issued in due course.

Secretary.

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

Letter No. 5988—591, dated the 23rd March 1908, from Mr. F. E. C. Carr, late Inspector-General of Police, submitting proposals for the redistribution and reallocation of the Police Force in the Districts and Cities of Bangalore and Mysore :—

"1. In continuation of this office letter No. 98—12, dated 6th July 1907, I have the honour to forward herewith proposition statements with maps * *in re* the Redistribution and Investigating Centre Schemes for the districts of Mysore and Bangalore, and the Bangalore City.

* Will follow.

2. *Mysore District* (including the French Rocks Circle).—No additional cost is proposed; in fact, there will be a small savings of Rs. 16 per mensem, or Rs. 192 per annum in carrying out the schemes in this district and the sub-division. I trust, therefore, that Government will accord early sanction to these proposals.

3. *Bangalore District.*—The present proposals result in a net increase of Rs. 28 per mensem, or Rs. 336 per annum, in the Bangalore District, which can be partly met from the savings of Rs. 192 shown under the Mysore District.

4. *Bangalore City.*—This is the most important scheme in the whole Province, and has therefore been delayed to the last, so that I might be guided by the experience gained in working out all the district proposals, and after consulting with the District Superintendent of Police and the Deputy Commissioner Mr. Sparkes. The scheme will involve a very considerable increase in expenditure of Rs. 1,946-8-0 per mensem or Rs. 23,358 per annum, which, however, cannot be avoided owing to the need for extra Police in the new Extensions in the City which have been growing so rapidly during the last few years, so that the Force now at our disposal is wholly inadequate. The main items of increased cost will be due to—

(*a*) The number of Inspectors being brought up from 3 to 6. The reasons for the increase are clearly demonstrated in the Superintendent's memo (copy enclosed) in the details of which I fully concur. The special attention of Government is drawn to the comparative figures in the Cantonment, where it will be seen that there are according to the present scale *17 Inspectors and Sub-Inspectors.*

It is proposed to divide the City and Extensions into 4 divisions with an Inspector in charge of each. In addition, a Prosecuting Inspector for the City is absolutely necessary, to look after the Court work of the City alone. The remarks of the City Magistrate and Superintendent may be perused in this connection. The Chief City Inspector will as heretofore be the right-hand man of the District Superintendent in all City work.

Special local allowances are recommended to all Inspectors serving in the City to compensate them for the more responsible work they will be called on to perform and to meet the high cost of living in Bangalore. These allowances come to Rs. 150 a month.

(*b*) The increase in the number of Head Constables, *viz.*, from 12 to 24, which will be required for the proper supervision of the work of the new stations and outposts.

(*c*) The number of Sergeants being brought up from 34 to 40. This increase is required for the proper supervision of the extended beats both by day and night, which entail much extra work on this useful class of officers.

(*d*) The total number of constables being increased from 278 to 352 which is virtually the same strength as in the Cantonment, *vide* statement attached, from which it will be seen that the area and population of the City and Cantonment are virtually the same. It is proposed to raise the pay of constables by *Re. 1 all round*, the grades being fixed at Rs. 8, 9 and 10 instead of at Rs. 7, 8 and 9 as at present. This extra pay to constables is absolutely necessary if Government wish to keep up the sanctioned strength. Even now with the inadequate number of 278 men in all, we are constantly faced with the difficulty of recruitment; which leaves us often 30 to 40 constables below the *present strength*, irrespective of casualties; this means that the work is badly done, or not done at all. The increase of pay proposed does not even equal what has been *sanctioned* for the Civil and Military Station, where the revised rates of pay are Rs. 9, 10, 11 and 12.

(*e*) A "*City charge allowance of Rs. 100 per mensem*" to be given to the District Superintendent of Police whoever he may be, or of whatever grade. In the Cantonment, which, as I have before shown, is not larger in area or population, and where the crime dealt with is in no way more important than in the City, a *separate* District Superintendent is employed, whose only other duty beyond his work in the Civil and Military Station is the overlooking of the Railway Police. Our Superintendent on the other hand has in addition to the City a heavy district to look after, a district of the same size, and as important as the district of Kolar, Hassan or Tumkur. I think that it is nothing but fair that for the extra work and extra responsibilities of the City charge he should have some compensation.

The Government have lately allowed special allowances to the Deputy Commissioner and the Vice-President of Rs. 150 and 100, respectively, for City work; while the Amildar still continues to draw the local allowance of Rs. 50; the Superintendent therefore has an equal if not greater claim to an allowance.

In this connection I would call attention to letter No. 1706—185, dated 10th November 1897, in which the then Inspector-General of Police recommended an allowance of Rs. 100 to the District Superintendent of Police for charge of the City. (Copy enclosed for information.)

5. In conclusion I would very strongly impress on Government the fact that unless the above schemes are carried out in their entirety, the work of the Police especially in the Bangalore City will not be efficient; and the public will have fair grounds for complaint that their interests and safety are not being properly safeguarded.

6. Our scheme for Bangalore City, if my proposals are accepted, will cost *Rs. 14,500 less* per annum than the present revised expenditure in the Civil and Military Station of Bangalore.

MEMORANDUM.

The general features of the revision scheme are an increase in the number of Jamadars and a decrease in the number of Dafadars who, it is hereafter proposed, should not independently handle any case. With this object in view, the number of Jamadars has been increased by 12.

2. Three investigating centres have been proposed for the important taluks of Bangalore and Kankanhalli. The others have been each provided with two Investigating Centres in consideration of the exposed situation and of the peculiar circumstances influencing the preventive and detective branches of the Police work of these taluks. The sub-taluk of Closepet is smaller in extent and the crime is also light. It has therefore been proposed that the Inspector should personally be in charge of a range, supervising at the same time the work of a Jamadar in charge of another range. No additional Jamadar has therefore been proposed for Closepet.

3. Advantage has been taken of the re-arrangement to transfer stations from places where they were no longer required to places which had risen in importance since the Police was first organised in the district, and in other cases the allocation has been recast. These retrenchments result in a saving which goes to reduce to an appreciable extent the cost of the increase of strength proposed for the District Reserve.

4. As good training in drill is very essential to a Policeman, a Drill Instructor is set apart for each taluk on Rs. 8+Rs. 2 allowance per mensem out of the allocated strength.

5. The net result of all these proposals for the whole district is an increase of Rs. 28 per mensem or Rs. 336 per annum.

(Sd.) L. KRISHNA RAO,

28th June 1907. *Dt. Supt. of Police, Bangalore.*

Bangalore Taluk.—At present the taluk has two Head Stations and nine Sub-Stations. Two more Sub-Stations, Tarabanhalli and Rajankunte, have recently been added to the taluk by Government Proceedings No. R. 15365—L. R. 678-05-4, dated 3rd May 1906. The taluk is a large one covering more than 500 square miles. Two Investigating Centres are not sufficient and it is proposed to have a new Investigating Centre at Jaraganhalli with Sub-Stations at Madivala, Kengeri and Talaghatpura attached. Each centre will thus have about 150 square miles, and as the country is rich and populous, I consider three centres necessary. The average number of crime for each centre will be about 40 per annum.

The proposal to transfer the station at Vartur to Whitefield has been long pending and as the settlement at Whitefield is daily growing in importance it is proposed that the station at Vartur may be transferred there.

The station at Basavangudi has been omitted in the proposal for the taluk as it will be included in the City Police.

The net result of these proposals is an increase of one Jamadar and a decrease of one Dafadar and fourteen constables or a net savings of Rs. 85 per mensem or Rs. 1,020 per

Judicial and Legislative (Police), dated 4th May 1909.

Anekal Taluk.—This is a small but an important taluk, as it is surrounded on three side by British Territories. It has one Head Station and four Sub-Stations.

Two of these Sub-Stations, Attibele and Hebgodi, guard the Bangalore-Salem high road. It is proposed to convert these Sub-Stations into Outposts with 5 constables each a the road is still an important one.

Sarjapur is a flourishing town with a large Mahomedan population. It was the head quarters of the taluk and an Investigating Centre may conveniently be located there t comprise the north-eastern half of the taluk.

Net savings Rs. 13 per mensem or Rs. 156 per annum.

(Sd.) L. KRISHNA RAO,

28th June 1907. *Dt. Supt. of Police, Bangalore.*

Dodballapur Taluk.—This taluk has an area of 340 square miles with more than 40 villages attached. The average crime is 41.

The taluk had one Head Station, 6 Sub-Stations and 2 Outposts. One of the Sub Stations, Rajankunte, has recently been transferred to the Bangalore Taluk.

The northern parts are hilly and the famous Ghati Subramanya is situated in thi taluk. Two Investigating Centres are sufficient for this taluk, one at Dodballapur t comprise all the north-eastern portion and the other at Dodbelavangala to take in all th western portion.

Hanaba was a turbulent village with a large Mahomedan population and an Outpos was therefore established there. The village is fairly settled now, and as it is equidistan from Dodballapur as well as Dodbelavangala, being 4 miles from either, it is proposed to d away with it.

The Sub-Stations at Tubagere and Sasalu may also be converted into Outpost These are not on the highways and will be sufficiently manned by one 1st class constabl and two 2nd class constables each. The Sub-Station at Chennadevi is only 8 miles fro Dodballapur and the next station on the road, Dobspet, is also 8 miles. The country is ope and peaceful and an Outpost to guard the road is all that is necessary.

The net result of these proposals is an increase of one Jamadar and a decrease of Dafadars or a savings of Rs. 10 per month or Rs. 120 per annum.

(Sd.) L. KRISHNA RAO,

28th June 1907. *Dt. Supt. of Police, Bangalore.*

Devanhalli Taluk.—Budigere and Mudagurki have decreased in importance and Out posts with one 1st class constable and two 2nd class constables each will suffice.

As Jala has since become important, it is proposed to make it an Investigating Centr with Budigere as an Outpost.

The net increase is Rs. 4 per month or Rs. 48 per annum.

(Sd.) L. KRISHNA RAO,

28th June 1907. *Dt. Supt. of Police, Bangalore.*

Hoskote Taluk.—This is a fairly big taluk covering over nearly 300 square miles. Th Madras-Bangalore Railway passes through the south of the taluk.

There are at present one Head Station, 5 Sub-Stations and one Outpost in the talul As the taluk is not one compact block, the greatest length being nearly 30 miles, it has bee found necessary to propose two Investigating Centres one at Hoskote, one at Satyavar.

The Station at Nandagudi is too near to the next Police Station in the Kolar District Jangamkote, being only 7 miles. The Station may therefore be shifted to Satyavara, whic may be made the Investigating Centre for the northern parts of the taluk. The Statior at Sulibele and Muguvala may be converted into Outposts and attached to this centre.

Devangundi is a Railway Station and a Sub-Station is necessary. A small Outpost Kadgodi will be attached to it.

Hoskote Investigating Centre will have Bidarhalli which will be retained as an Ou post.

The net savings by these proposals is Rs. 5 per month or Rs. 60 per annum; but cor sidering the great distances in the taluk, no further reduction can safely be recommended.

(Sd.) L. KRISHNA RAO,

28th June 1907. *Dt. Supt. of Police, Bangalore.*

Nelamangala Taluk.—This taluk extends from south-east to north-west with an average breadth of 8 miles. The Bangalore-Harihar road passes through the taluk.

There were one Head Station and 6 Sub-Stations. One of the Sub-Stations, Tarabanhalli, has been added to the Bangalore Taluk. There are at present 4 stations guarding the high-road, *viz.*, Madavar, Nelamangala, Begur and Dobspet. Owing to the advent of the Railway, the traffic on the road has very much decreased and it is proposed to convert Madavar and Begur into Outposts.

Sondekoppa is a large village and, though not on the high-road, is an important village. The Sub-Station may therefore be retained there.

Two Investigating Centres are proposed, one at Nelamangala to comprise the south-eastern half of the taluk and the other at Tyamagondlu to take in the north-eastern half. Tyamagondlu is a large town with an active trade. It was formerly the head-quarters of the taluk and a Head Station there is necessary.

The net result of these proposals is an increase of one Jamadar and a decrease of 2 Dafadars and 5 constables or a saving of Rs. 18 per mensem or Rs. 216 per annum.

(Sd.) L. KRISHNA RAO,
Dt. Supt. of Police, Bangalore.

28th June 1907.

Magadi Taluk.—This is a big taluk comprising more than 500 square miles. It is a hilly jungly country and communication is difficult.

At present there are one Head Station and six Sub-Stations in the taluk. Of these Chakrabhavi Sub-Station is only six miles from Magadi and has very light crime. The Sub-Station may therefore be abolished.

The Sub-Station at Bachenahatti is only four miles from Magady. It was established to guard the Hassan-Bangalore road which still retains importance. An Outpost may therefore be retained there.

Talekere is only four miles from Kudur which becomes an Investigating Centre under the present proposal. An Outpost may be retained there to guard the road.

As the taluk is a big one, two ranges are necessary—one at Magadi to take in all the southern half and the other at Kudur to comprise the northern half of the taluk. Further reduction is not advisable as the taluk is an important one.

The net savings in the taluk is only Rs. 8 per mensem.

(Sd.) L. KRISHNA RAO,
Dt. Supt. of Police, Bangalore.

28th June 1907.

Closepet Sub-Taluk.—There are at present one Head Station and two Sub-Stations in the Taluk.

The Station at Vadavatta is too near Bidadi and the outlying hilly parts are left unprotected. It is therefore proposed to transfer the Station to Jalamangala, a large village in the north-western portion of the taluk. Vadavatta may be retained as an Outpost with two constables. The Outpost of Tenginakal, Channapatna Taluk, may be transferred to Kailancha in this taluk.

As the taluk is a small one, it is not necessary to have two Jamadars. The Inspector will be in charge of the Closepet Centre and the Jamadar in charge of Bidadi Centre.

The net increase by these proposals is Rs. 5 a month or Rs. 60 per annum.

(Sd.) L. KRISHNA RAO,
Dt. Supt. of Police, Bangalore.

28th June 1907.

Channapatna Taluk.—There are at present one Head Station, four Sub-Stations and one Outpost. The taluk is an important one with a large Mahomedan population.

The Outpost at Tenginakal may be advantageously added on to the Closepet Investigating Centre and removed to a point along the Closepet-Kankanhalli road, where there is no Outpost at present. Several villages attached to Tenginakal Outpost have since been included in Closepet Range under the orders of Government.

Two Investigating Centres, one at Channapatna and the other at Akkur, are proposed.

The net increase is Rs. 6 per mensem or Rs. 72 per annum.

(Sd). L. KRISHNA RAO,
Dt. Supt. of Police, Bangalore.

28th June 1907.

Judicial and Legislative (Police), dated 4th May 1909.

Kankanhalli Taluk.—This is a large and hilly taluk covering over nearly 600 square miles. Communication between the parts is difficult and at times wholly cut off by the swollen streams.

At present there are two ranges, one at Kankanhalli and the other at Kodihalli. There are seven Sub-Stations. Of these the Sub-Station at Mulhalli is about six miles from Kodihalli and may be abolished.

Three Investigating Centres are absolutely necessary for the taluk, one at Kankanhalli, one at Kodihalli, and the third at Harohalli. The Sub-Station at Kaglipur is unnecessary, as very few cases are ever reported in these parts. It may therefore be converted into an Outpost.

The net result of these proposals is a saving of Rs. 11 per mensem or Rs. 132 per annum.

(Sd). L. KRISHNA RAO,
Dt. Supt. of Police, Bangalore.

28th June 1907.

District Reserve.—At present almost the whole of the District Reserve is used up in detailing orderlies to the Deputy Commissioner, the Superintendent and the various Magistrates. For any emergency and even for ordinary duties, such as the Birasandra Military Camp, the services of the Special Reserve have to be requisitioned for. Duties such as escorting prisoners from Central Jail to any Court are at present assigned to the City Police and men are drawn away from their legitimate duties and great inconvenience is caused. To obviate all this, a large increase in the District Reserve has been proposed. Of the fifty constables proposed for the District Reserve, so many as twenty are absorbed in orderly duty, five constables are at present doing duty as writers in the office and only twenty-five constables will be left to attend to the numerous requisitions from the Central Jail for escort duty and for miscellaneous duties. Of the eight Dafadars proposed, two will be orderly Dafadars, one will be in charge of the store and will work in the office and one, who is also to be the Drill Instructor, will be in charge of the School. The remainder will be detailed to officer the escort parties.

The Gang revision work in the district has already proceeded a good way and the History Sheets of most of the permanent Gangs in the district have been written up. The work of collating and reducing to order the various accounts written by the special duty dafadars and the work of permanently recording in revised Gang Register the result of their labours has now to be taken in hand, and at first at least, one Jamadar and two Dafadars (all picked men) will be necessary to aid the Gang Inspector.

When the Gang work is complete, it will remain for the office to continue to record carefully the movements and further history of the Gangs and I have therefore proposed one Jamadar permanently for Gang duty. The other will attend to the service registers and the usual duties of a Reserve Jamadar. The third will be in charge of the stores, the work being specially heavy in this district. The fourth will be required to be always ready for relieving any Inspector who wishes to go on leave and for other office and special duties.

(Sd). L. KRISHNA RAO,
Dt. Supt. of Police, Bangalore.

1907-08.

MEMORANDUM.

Proposals for the re-organization and redistribution of the City Police Force, Bangalore.

The sanctioned scale for the City of Bangalore at present is—

1 Chief Inspector,
2 Inspectors,
12 Head Constables,
34 Sergeants,
278 Constables,

and these are at present distributed as follows:—

No.	Stations or Ranges	Chief Constables or Inspectors	Head Constables	Sergeants	Constables
1	Central	1	4	5	44
2	Fort, Kalaspalya	...	2	5	44
3	Chamarajpet, Mysore Road Outpost, Gavipur Outpost	.....	1	4	44
4	Kengeri Gate, Upparpet	.	2	5	44
5	Malleswaram	. ...	1	3	14
6	High Ground, Upparhalli	1	2	5	44
7	Yelahanka Gate and Ulsoor Gate	.. ...	1	4	44

2. All the beats in the City were revised two years ago under the orders of the Inspector-General of Police and each station or range has at present four beats. The A B C system of beat introduced into the City requires 32 Constables for each station or range to work up the 4 beats at 8 Constables per beat. Allowing 12 men for miscellaneous duties, the strength of each station or range will be 44 Constables; 5 Sergeants are necessary, 4 to officer the sections and one for station duty and Outposts. The work in the City requires the presence of a Head Constable in each station throughout the day and night and 3 Head Constables are required in each station to work by turns. The allocation necessary for the satisfactory discharge of these duties is 3 Head Constables, 5 Sergeants and 44 Constables for each station or range.

3. *Basavangudi and Malleswaram.*—Basavangudi Extension is at present included in the Bangalore Taluk. The necessity for including it in the City Police is obvious. The sanctioned strength is proposed to be increased in the interests of public safety as the present make-shift arrangement under which a few extra men drawn from the Sub-Stations of the District as well as from the adjoining stations of the City are posted to Basavangudi, is not found to give satisfaction. This proposal aims at rendering the system of beat work uniform throughout the City embracing, as it now does, the two large extensions of Basavangudi and Malleswaram. The Municipal limits are further proposed to be extended in the direction of the Imperial Service Lines, and when this proposal receives the sanction of Government in due course, the sphere of Police work will be necessarily extended so as to necessitate the location of another Outpost near Munireddipalya.

4. *Chief Constables.*—Two Chief Constables were sanctioned for the City in 1881, twenty-six years ago when Bangalore City had not attained its present dimensions. Now that extensions have sprung up all round, it is impossible for two Chief Constables to manage with efficiency the work of their present ranges. If Basavangudi and Malleswaram and Munireddipalyam are also added on to the City limits, the need for additional Inspectors becomes greater than ever. Four circles are therefore proposed.

A or Fort Division to include the limits of the present Central Station, Kengeri Gate Upparpet and Yelahanka Gate Stations.

B or High Ground Division to include Munireddipalyam, Palace, the Imperial Service Lines, Seshadripuram, Guttahalli, Malleswaram and Pindarcherry.

C or Kalaspalya Division to include Ulsoor Gate Kalaspalyam, Lal-Bagh, Mavalli and Upparhalli.

D or Basavangudi Division to include Basavangudi, Chamarajpet, Krishnarajpet (when formed), Gavipur and Mysore Road Outpost.

The existing and proposed scales are noted hereunder:—

Existing scale					Proposed scale					
No.	Stations	Inspectors	Head Constables	Sergeants	Constables	Division	Stations	Inspectors	Head Constables	Sergeants	Constables
1	Central	1	3	8	44	A	Yelahanka Gate ...	...	..	..	..
2	Kengeri Gate ...	1	2	5	44	A	Central	1	3	5	44
3	High Ground ..	1	2	5	44	A	Kengeri Gate ...	1 Prosg. Inspr.	3	5	44
4	Malleswaram ...	...	1	3	14	A	Upparpet	1	...	..	...
5	Kalaspalya ..	..	2	5	44	B	High Ground ...	1	3	5	44
6	Ulsoor Gate ...	...	1	4	44	B	Malleswaram ..	..	3	5	44
7	Basavangudi ...	...	1* (Dafadar)	...	7*	B	Seshadripuram ..	..	..	..	...
8	Chamarajpet ...	..	1	4	44	B	Guttahalli ...	...	...	...	...
						B	Munireddipalyam ...	...	...	..	...
						C	Kalaspalya ...	1	3	5	44
						C	Ulsoor Gate ...	...	3	5	44
						C	Lal-Bagh ...	...	...	...	..
						C	Mavalli and Upparhalli	..	...	...	...
						D	Krishnarajpet (when formed) ...	...	...	..	...
						D	Basavangudi ...	1	3	5	44
						D	Gavipur .	..	...	...	...
						D	Chamarajpet ...	..	3	5	44
						D	Gavipur and Mysore Road Outpost ...	...	...	...	..
	Total ...	3	13	34	285	4	Total ...	6	24	40	352

5. *Prosecuting Inspector.*—Prosecution.—On an average 3 to 4 cases of the City (not to speak of the several petty cases) are posted for hearing before the City Magistrate every day and most of the cases are contested inasmuch as lawyers are invariably engaged for defence even in the simplest of cases. The District Prosecuting Inspector has been ordered to attend to the prosecution of all cases in the Courts of the First Class Magistrates and he has to attend two Courts in Bangalore and one in Closepet, and a third will shortly be started at Dodballapur. His time is fully taken up with the district cases and he cannot therefore attend the City Magistrate's Court. The Chief Constables of the City have in consequence been ordered to attend to the prosecution of cases belonging to their respective ranges by a mutual arrangement. This entails five hours' attendance at the City Magistrate's Court every day, as a case may be called up any time, and as a result the other duties connected with investigation and detection of the Chief Constables' ranges have to be neglected. I would suggest that a full-time Inspector for Court duty in the City cases may be kindly sanctioned as this would save much unnecessary waiting on the part of the Chief Constables and set them free to attend to the investigation and detection of crime.

NOTE.—The City Magistrate in his letter No. 646, dated 30th May 1907, brings to notice the unsatisfactory state of the prosecuting agency in his Court and requests that the "Government may be asked to appoint an intelligent Prosecuting Inspector" solely for his Court.

6. *City Inspector.*—The City Chief Inspector will, as at present, continue to supervise the work of the Divisional Inspectors and in fact the work of the whole staff in the City. He will personally conduct the investigation of important heinous crime and will himself conduct prosecution in very important cases. As he has four Inspectors under his control and is responsible for the work of the entire City Police, I submit that he may be given a corresponding status and that his pay may be fixed at Rs. 200-10-250.

7. *Pay of Constables.*—The pay of the constables in the City at present is far too low, considering the expense incidental to a city life. The Indian Police Commission have arrived at the conclusion that the bare "living wage" for a Constable cannot be less than Rs. 8 per month in any province. The demand for labour in Bangalore is so great that it is impossible to get the proper kind of recruits for even this pay. I would therefore propose increasing the pay of Constables by Re. 1 all round. The pay will then be Rs. 10, Rs. 9 and Rs. 8 for the three grades of Constables.

At present the subordinate City Police are graded as follows:—

		Rs.	
Head Constables,	1st grade	25+8	
Do	2nd do	20+5	
Do	3rd do	16+5	(now made 1st class Sergeants)
Sergeants,	1st do	14	
Do	2nd do	12	
Do	3rd do	10	
Constables,	1st do	9	
Do	2nd do	8	
Do	3rd do	7	

I would propose redistributing them as follows:—

		Rs.
Head Constables,	1st grade	25+8
Do	2nd do	20+8
Sergeants,	1st do	16
Do	2nd do	14
Do	3rd do	12
Constables,	1st do	10
Do	2nd do	9
Do	3rd do	8

and the grades of officers in the City will then coincide with the corresponding grades of Jamadars and Dafadars in the district and they can be changed at any time.

The Detective Staff.—This was organized in May last, with one Head Constable and 7 Constables as a tentative measure. No separate staff was sanctioned by Government. At present a few men have been drawn for this duty from the several stations. It was found that the Head Constables in charge of stations were unable to cope with the professionals who quickly disappeared with their booty and in the discharge of their preventive duties, were often unable to pursue a scent while it was still fresh. It was hoped that a select body of men with no routine work to hamper them, would be able to watch and study the ways and movements of criminals, with surer chances of success. The experiment made in this direction has amply fulfilled the expectations formed at the commencement. The small number of detectives now in the City have taken part in all the important cases of the City and the valuable clues furnished by them led to the conviction of several notorious professional criminals like Subraya Pantulu. In the cow-killing cases, the series of thefts in the High

and it may safely be predicted that a trained staff of picked men of character, aptitude and intelligence would prove a useful auxiliary to the regular Police Force of the City in turning out better quality of work. Detectives should watch all over the town and watch the conduct of Known Depredators, suspects, suspicious fresh arrivals and must have thorough knowledge of men and their character. The Detective staff required for the City may be roughly fixed at—

1 Inspector.
2 Head Constables.
4 Sergeants and 25 men.

But while the extensions are fully formed up, the work of the Detective Branch can be attended to by one of the Divisional Inspectors aided by select men from the stations as at present. The proposal may therefore be deferred.

9. Considering how rapidly Bangalore City is growing in dimensions and rising in importance, the question of additional cost ought not to be allowed to stand in the way of improving the tone, the morale and the efficiency of the regular and the detective branches of the City Police Force.

10. The statement below shows the area, population and cost of Police of the City and the Civil and Military Station, Bangalore:—

—	Area	Population	Cost of Police	Remarks
Civil and Military Station	11	80,081	77,598	The population according to the Census of 1901 i 10,081 but 20,000 of these are under Military discipline and may be discounted for Police purposes.
City	10½	80,000	63,000	The Census of 1901 gives the population at 69,44 but the normal figure is 80,000.

Statement A attached shows comparatively the strength of the Civil and Military Statio Police and the force proposed for the City.

It will be seen that while the City is slightly smaller in area, the density of populatio is nearly the same as that of the Civil and Military Station. Neverthless, the cost of th Police proposed for the City falls below 19 per cent of that of the Civil and Military Statio The proposals have been worked out with a strict view to economy and in the interests c public safety, the reforms proposed cannot without serious detriment be deferred an longer.

A consolidated statement showing the present and proposed scale and the cost is heret appended for kind reference.

Judicial and Legislative (Police), dated 4th May 1909.

A.—Statement showing the area, population and yearly crime of the proposed Investigation Centre Ranges in the Bangalore District.

No.	Taluk	Number of Investigating Centres	Area in square miles	Population	Number of villages attached	Average of crimes for 10 years	Total number of cases reported during 1906-07	Remarks

Judicial and Legislative (Police), dated 4th May 1909.

Letter No. 403, dated 25th December 1907, from M. Kantaraj Urs, Esq., B.A., Deputy Commissioner, Mysore District, to F. E. C. Carr, Esq., Inspector-General of Police in Mysore.

With reference to your letter No. 8613—669, dated 6th June 1907, to the District Superintendent of Police, calling for the submission of fresh proposals in connection with the Investigation Centres, I have the honor to enclose herein the several statements showing the redistribution of the Force. I generally agree with old proposals, but with the following modifications:—

(1) In the Heggaddevankote Taluk, Kakankote is too important a place to be reduced to an Outpost, as, apart from the fact that it is a place always frequented by important personages for Shikar and therefore requiring a responsible officer on the spot, there would be no officer to attend to emergencies between Antarsante and Bavali, a distance of 20½ miles. I would therefore propose the addition of a dafadar to the station as the proposed strength of three constables does not admit of any reduction under that head.

(2) In the Hunsur Taluk, Gavadagere is an important place with a lot of factions. Besides this, the traffic between Hunsur and Yedatore has often been molested by criminal classes on that highway, and hence the presence of a dafadar there is very desirable. I would therefore retain Gavadagere as a Sub-Station substituting a dafadar for the 1st class constable in the proposed statement, entailing thereby an excess of only Rs. 4.

(3) Similarly the road between Mysore and T.-Narsipur is also an important one, and as several offences have been committed on this road which is 20½ miles long, Kilanpur deserves to be retained as a Sub-Station. But here again, to save cost, a dafadar may be substituted for the 1st class constable in the proposed statement.

(4) In the T.-Narsipur Taluk, Rangasamudra is an important and big village and has no Police Station or Outpost within a distance of 7 or 8 miles on this sid of the river Cauvery. It is also a troublesome place. I would therefore propose an Outpost with two constables in Rangasamudra.

(5) In the Nanjangud Taluk a new Outpost at Kalale, as per your instructions, has also been provided for with two 2nd class constables.

(6) In the Gundlupet Taluk in the old proposals *Hanumantarayangudi* has been shown as a Head Station, Maddur as a Sub-Station and Bandipur as an Outpost. But Maddur is the centre of a number of important and prosperous villages and being more healthy and possessing greater water convenience than Hanumantarayangudi, it has also the further advantage of possessing a good set of lines for the men. By making this the Head Station, not only would the health of the men be better maintained, but it would save the cost of constructing fresh lines at Hanumantarayangudi. I would therefore propose Maddur as a Head Station, Hanumantarayangudi which is only 7½ miles from Gundlupet as an Outpost and retain Bandipur as a Sub-Station, taking the distance between Gundlupet and Kekkanhalla, Bandipur comes in very conveniently as a Sub-Station.

With these modifications the proposals may be adopted. Out of the 1st class constables allotted to the taluks in the new proposals, provision has been made for a Drill Instructor in each taluk, with an extra allowance of Rs. 2. In the District Reserve two 1st class dafadars have been proposed, one of whom will be set apart as Drill Instructor. The total cost of the strength thus altered in the fresh proposals comes to Rs. 4,251. It has not been possible to effect any savings consistent with efficiency and the actual requirements.

Proceedings of the Government of His Highness the Maharaja of Mysore.

Extra amount required is Rs. 61 per mensem or Rs. 732 per annum.

NOTE—Savings from the French Rocks Circle is Rs. 77 per mensem

Net savings from the Mysore District (including the French Rocks Circle) is Rs. 16 per mensem or Rs. 192 per annum

Proceedings of the Government of His Highness the Maharaja of Mysore,

Letter No. 568, dated 27th November 1907, from A. C. Basavaraja Urs, Esq., Assistant Superintendent of Police, French Rocks Circle, to F. E. C. Carr, Esq., Inspector-General of Police in Mysore.

I have the honor to submit herewith proposals for the redistribution and re-allocation of the Police Force in the French Rocks Circle.

Proposition statements showing the existing and proposed Investigation Centres, Sub-Stations and Outposts with their allocations are hereto attached. The proposed scheme, if sanctioned, will result in a saving in cost of Rs. 77 per mensem or Rs. 924 per annum, and in men of eleven 1st class Constables, nine 2nd class Constables and fifteen Dafadars.

In the proposed scheme, to every taluk there are given two Investigation Centres except to French Rocks and Seringapatam, which, by reason of their small area, are given only one Centre each.

This Circle is the head-quarters of a First Class Magistrate, having jurisdiction over five taluks and as such, there is a lock-up here with many under-trial prisoners; and as the French Rocks Sub-Taluk Police detail men for guarding them, frequent complaints are received from them regarding want of men. The proposed increase in the District Reserve is intended to give a full-time establishment for the special work.

There is no regular Treasury at the head-quarters with Barr Sepoys for guarding it. The Police cash box and the Court box containing properties relating to cases are guarded by the Reserve Police only.

The increased strength proposed for the Reserve is intended to meet the above duties and also to meet the casualties, to carry out the duties of escort to prisoners to meet emergencies and other very frequent special duties in the Division in connection with the state visits of the Governor-General, Governors, Chiefs as well as the Royalties to the ruins of Seringapatam and the falls at Sivasamudram.

A Jamadar also is proposed for the Reserve to attend to the prosecution of ordinary cases in Courts, to the various extra duties and relieve the Head-quarter Inspector of many minor duties which take up much of his time.

Like the Kadur District, this circle contains five taluks and a sub-taluk. Whereas Kadur District Police Office contains the full establishment, this circle office is wanting in a Head Munshi on Rs. 40 and a full-time Prosecuting Inspector. The need for both is keenly felt owing to pressure of work and to cope with the increase of work. If no Head Munshi on Rs. 40 could be sanctioned out of the savings of Rs. 77 per mensem at least an additional second grade Jamadar may be given out of the proposed savings for office work, for detection and investigation work when required and to meet casualties.

The Outposts proposed in various taluks are intended to safeguard the heavy road traffic.

The scheme, if sanctioned, will work well and will not entail additional cost to Government.

The abolition of the stations of Gajjalgere and Nidagatta on the Bangalore-Mysore road and of Sivahalli which is only six miles from Mandya and in the interior of the same taluk, is also proposed.

Before the extension of Railway from Bangalore to Mysore, there was a regular heavy cart traffic on the road, but recently the same has gone down considerably. The distance of Bangalore-Mysore road within the limits of this circle is about 42 miles and there are seven stations on the road belonging to this circle. Nidaghata Station is the first from Bangalore side and is only four miles from Maddur and eight miles from Channapatna. This part of the road can be guarded by two constables, one from Maddur and one from Channapatna meeting midway, with the help of two Ookad watchmen. Gajjalgere is the third station on the same road and is four miles from Maddur and eight miles from Mandya, and similarly two constables, one from Maddur and one from Mandya meeting midway, and with the help of the Ookad watchmen, can patrol the distance. The other stations Lingarajachatra, and Ganangur on the same road have been proposed to be converted into Outposts with a small Police force to guard on either side of the road. The present station at Sivahalli is only six miles from Mandya and is not on any of the high-roads The constables of Mandya and Basaral can patrol the villages attached to this station, and it is also proposed to convert this station into an Ookad.

The separate existence with a Dafadar of the town station of Malvalli is proposed to be done away with as the Kasaba town can be managed by the Police officers and men available at the head-quarters of the taluk, the strength of the Police at head-quarters having been

Judicial and Legislative (Police), dated 4th May 1909.

It is also proposed to convert Nagathihalli Station of the Nagamangala Taluk into an Outpost as it is between Nelligere and Hirisave Stations on the road to Channarayapatna.

The Sub-Station of Bukankere in Krishnarajpete Taluk is proposed to be converted into an Outpost as it is only five miles from Chinkurali, the proposed Investigation Centre.

The Sub-Stations of Honakere on the French-Rocks-Nagamangala road, and of Damadahalli on the French Rocks-Chinkurli road are proposed to be converted into Outposts, as there is nothing very important with them except guarding the road traffic.

Kastur Station, which is midway between Huliyandurga Station of the Tumkur District and Maddur, is proposed to be converted into an Outpost as the road on either side may be watched by the constables.

Rottikatta Station is proposed as an Investigation Centre as it is very near to Bluff on the road, and Boppagundanapura may be made an Outpost, being only five miles from Rottikatta across country and seven miles by road.

Kirigaval, which is only nine miles from Malvalli and one mile away from Malvalli-Bannur road, is also proposed to be converted into an Outpost for the same reason.

Bellur and Paschimavahini are proposed to be converted into Outposts again.

Net savings of Rs. 77 per mensem or Rs. 924 per annum.

Judicial and Legislative (Police), dated 4th May 1909.

Letter No. 3062—314, dated the 7th December 1908, from Mr. D. Devaraj Urs, the present Inspector-General, suggesting some modifications in the proposals already submitted regarding the Police Force of the Bangalore and Mysore Cities:—

1. In continuation of my letter No. 7139—714, dated 18th May 1908, I have the honor to state that the revision of the Police for the Cities of Bangalore and Mysore has been engaging my attention for some time past. I regret the delay in the submission of this report, as I had to bestow some time for the consideration of the question, being as it is a very important one. As has already been stated by Mr. Carr, it indeed forms the most important part of the scheme for the re-organization of the Police for the whole Province. I agree with his proposals in the main, except in one or two points noted below, which are, in my opinion, very necessary, as Bangalore is becoming a more and more important centre of activity, with the extensions growing larger every day.

2. In speaking of the Presidency Towns, the Police Commission said "Large Cities "must always be important foci of crime and a favourite retreat for dangerous criminals, "and this *a priori* conclusion is confirmed by the evidence before the Commission." Bangalore and Mysore are our Presidency Towns and as such the Police Scheme for these Cities, should, of course, be of a special nature, though on a somewhat smaller scale compared with the large Cities like Bombay, Madras, etc.

3. (*a*) For the *Bangalore City*, I beg to propose, and that after careful consideration, that it is high time, that the Police should have an independent control, and that its constabulary should be given a higher rate of pay.

(*b*) At present, the District Superintendent of Police, Bangalore, has, in addition to the District work, the control of the City Police as well. So long as this continues, I am afraid to think, and there is every reason to believe, that either the one or the other ought to suffer, so far at least as supervision is concerned, not to speak of the directing of investigation. The District work, by itself, is very heavy and more than ample for one Superintendent. I would, therefore, very strongly urge the appointment of a Superintendent, or an Assistant Superintendent, who should pay his undivided attention to the City itself. The Civil and Military Station, whose area and population are almost the same as that of the Bangalore City, has a full-timed and highly paid Superintendent for itself, and a Force consisting of officers and men as noted in the margin * and costing Rs. 77,598 per annum, whereas the present scale of the Bangalore City Police consists of officers and men as per margin † and costs only Rs. 39,642 per annum. The appointment, therefore, of a full-timed officer of the status of a Superintendent, or an Assistant Superintendent to the City, is, I believe, a very necessary step and a pressing one too.

* 3 Inspectors.
14 Sub-Inspectors.
29 Head Constables.
23 Sergeants, and 353 men.

† 3 Inspectors.
6 Head Constables.
40 Sergeants and 278 men.

(*c*) With the appointment of such an officer, I would, however, recommend the abolition of the appointment of the Chief Inspector which would then become superfluous. He is, though highly paid, without the rank and status of a Gazetted Officer, and is nothing more than an ordinary Inspector, except that he gets higher pay. He has under him two or more Inspectors who, for the sake of convenience, are styled as Division Inspectors. This arrangement, I need hardly say, is not conducive to discipline. I therefore propose to do away with the appointment of Chief Inspector. I would have the City divided into 4 Divisions under 4 independent Inspectors and above them all, a Superintendent, or an Assistant Superintendent, solely for the City work.

(*d*) I would not also recommend the grant of local allowance to the Superintendent and the City Inspectors which Mr. Carr has done. In the Civil and Military Station, and in the Presidency Towns, they are not given any local allowances except under exceptional circumstances. It is enough if Inspectors of higher grades are posted to the City, and these get a higher rate of horse allowance of Rs. 20, while in the districts, they get only Rs. 15.

(*e*) I would next strongly urge upon Government the absolute necessity to have our men given the same rates of pay as is in the Civil and Military Station, where they have 4 grades, *viz.*, Rs. 9, 10, 11 and 12. But for the present, for the Bangalore City, I would only propose 3 grades, *viz.*, Rs. 9, 10, and 11. I need hardly dwell at any length on the absolute necessity for this step. The cost of living has become very high, consequent on the tremendous increase in the price of even the barest necessaries. The conditions of service have also become very exacting with the increased efficiency of the supervising staff. If, in these circumstances, better pay to men is not given, the best available men will be attracted to the Civil and Military Station and we shall have only men of the inferior sort. This, it need not be said, will, in the long run, tell seriously upon the efficiency of the Force. Moreover, in the City, even the day-labourers get better wages, *viz.*, Rs. 10 and above, and there-

4. Financially, the difference between Mr. Carr's proposals and mine is this :—

I would have 5 Inspectors against 6 of his, 4 for the four Divisions into which the City is proposed to be divided and one for the prosecution work: over these, there will be a Superintendent whose average pay may be estimated at Rs. 350 per mensem. An increase of one rupee all round to the pay of the constabulary over that proposed by Mr. Carr, entails an additional cost of Rs. 352 per mensem; as against this increase, there will be a saving as shown below. By the abolition of the post of Chief Inspector and doing away with the grant of local allowances to the Superintendent and to the Division Inspectors which Mr. Carr has recommended, there will be a saving of Rs. 470 per mensem. If from this sum, the sum of Rs. 352, being the increase by enhancing the pay of the constables, be deducted, the difference of Rs. 118 will go towards meeting a portion of the pay of the Superintendent proposed to be appointed for the City. Thus the above proposal of mine will only entail an additional cost of Rs 232 per mensem or Rs. 2,784 per annum, which can be partly covered by the savings of Rs. 142-8-0 per mensem, or Rs. 1,710 per annum, now proposed to be effected in the Mysore District. The extra cost of Rs. 1,074 per annum, I trust, the Government will not consider a heavy charge, considering the degree of efficiency likely to be infused into all the grades of the Force.

5. *Mysore City.*—(*a*) The same remarks as in the case of the District Superintendent of Police, Bangalore District, also apply with equal force to the District Superintendent of Police, Mysore As it is, District Superintendent of Police, Mysore, for similar reasons, cannot exercise closer supervision over the work of the City Police. I would, therefore, propose a full-timed Assistant Superintendent of Police for the City, doing away with the appointment of Chief Inspector and retaining the three Division Inspectors who will work under the City Assistant Superintendent of Police direct.

(*b*) To effect this desirable change, I propose abolishing the French Rocks Sub-Division and bringing it under the control of the District Superintendent of Police, Mysore. The Assistant Superintendent of Police, French Rocks, will then be available for the Mysore City, of which he will be in sole charge. The Deputy Commissioner of Mysore, who was consulted in the matter, says in his D. O., dated 2nd December 1908, as follows :—

'I quite agree with you in thinking that the French Rocks Circle should cease to exist 'as an independent unit and be absorbed in the District proper, strengthening the office of 'the District Superintendent of Police by giving him at least a couple of hands more to 'cope with the additional work.

'I think the Mysore City is as important as Bangalore, if not more, for more than one 'reason of which you are doubtless aware personally. So, I should propose that the City 'should be in charge of an Assistant Superintendent of Police, and not a Probationary 'Assistant Superintendent of Police. A Probationary Assistant Superintendent of Police may 'be attached to the office of the District Superintendent of Police to learn work and to look 'after the current duties when the District Superintedent of Police is absent from head-'quarters.'

(*c*) There are at present two Probationary Assistant Superintendents in the Department and I propose attaching one of these permanently to the Mysore District, to assist the District Superintendent of Police. With a full-timed Assistant Superintendent of Police for the City and with a Probationary Assistant Superintendent of Police permanently attached to his district for training, the District Superintendent of Police will, I am sure, find it much easier to manage the District work more thoroughly and efficiently.

(*d*) The above proposal involves no extra expenditure but results in a saving of Rs. 207-8-0 per mensem being the average pay and allowance of the Chief Inspector proposed to be done away with.

6. (*a*) The present strength of the Police for the Mysore City is quite adequate and requires no addition or alteration beyond the appointment of a Prosecuting Inspector solely for the City and the grant of horse allowances to each of the Division Inspectors at Rs. 20 per mensem. I forward herewith for the information of Government copies of the marginally noted letters received from the Deputy Commissioner in the matter. I concur with him in thinking that a Prosecuting Inspector for the City is quite indispensable and I accordingly propose the appointment of an Inspector on Rs. 60 per mensem.

Letters Nos. A and 127, dated 10th and 29th August 1908, respectively.

(*b*) As pointed out by the Deputy Commissioner, it is very necessary that all the Division Inspectors of the City should be required to maintain horses, as otherwise they cannot perform their duties satisfactorily. Further, under Government Proceedings No. J. 1760-1—Police 132 of 03-04-9, dated 4-5th January 1905, all Inspectors are bound to maintain serviceable horses and I now propose to bring them under this rule and hence I have

Judicial and Legislative (Police), dated 4th May 1909.

recommended the grant of horse allowance to each of them. The above proposals involve an additional cost of Rs. 120 per mensem, which can be met from Rs. 207-8-0 savings calculated to accrue by the abolition of the appointment of Chief Inspector.

With the abolition of the French Rocks Circle, there will be a savings of Rs. 125, the cost of the marginally noted office establishment attached to the Circle. The total savings in the Mysore District according to the revision is Rs. 212-8-0, *i.e.*, Rs. 125 under the abolition of the French Rocks Circle and Rs. 87-8-0 under the Mysore City Force due to the abolition of the post of Chief Inspector.

		Rs.
1	Head-Quarter Inspector	55
1	Head munshi ...	30
1	Deputy munshi ...	25
1	3rd Munshi ...	15
	Total	125

(c) As proposed by the Deputy Commissioner, Mysore District, the office establishment of the District Superintendent of Police, Mysore, may be strengthened by two hands of Rs. 25 and 15 per mensem. Also a clerk on Rs. 30 may be given to the Assisatnt Superintendent of Police for Mysore City. These two items of expenditure come to Rs. 70 and leave a balance of Rs. 142-8-0 which will be available for being utilized towards the extra expenditure which the Government will have to incur by the appointment of a full-timed Superintendent for the Bangalore City. The net increase in expenditure will be Rs. 1,074 per annum.

7. The maps showing the Investigation Centre Ranges for the Districts of Bangalore and Mysore including French Rocks together, with the proposition statements, embodying the changes, are herewith forwarded.

8. I request that you will be so good as to obtain the early sanction of Government to the proposals."

Proceedings of the Government of His Highness the Maharaja of Mysore,

No. J. 3381-90—Police 189-07-5, dated Bangalore, 4th May 1909.

Order thereon.—The formation of investigating centres for the remaining six districts of the State having already been sanctioned by Government in Proceedings No. J. 2968-77—Police 14-07-2, dated the 27th March 1908, Mr. Carr, the late Inspector-General of Police, submitted a scheme for the redistribution and re-allocation of the Police Force and for the formation of investigating centres in the Bangalore and Mysore Districts, with separate proposals for the Bangalore and Mysore Cities. Mr. D. Devaraj Urs, the present Inspector-General, concurs in the proposals of his predecessor so far as they relate to the Bangalore and Mysore Districts, but has submitted modified proposals for the Bangalore and Mysore Cities. Government are pleased to sanction the proposals involving an additional recurring expenditure of Rs. 144 per annum so far as they relate to the Bangalore and Mysore Districts. The scheme will come into operation with effect from the beginning of the next official year. Due provision should be made for the extra expenditure in the next and future budgets. The proposals regarding the Cities of Bangalore and Mysore are reserved by Government for further consideration, and separate orders thereon will be issued in due course.

K. S. CHANDRASEKHARA AIYAR,
Secy. to Govt., Gen. & Rev. Depts.

To—The Inspector-General of Police in Mysore.
The Comptroller, Mysore Government.
The Deputy Commissioners of Bangalore and Mysore Districts.
The Deputy Commissioners of other Districts.

1908-09

VERNMENT OF HIS HIGHNESS
THE MAHARAJA OF MY[illegible]

DICIAL AND LEGISLATIVE
(POLICE)

PROCEEDINGS

Dated 4th May 1909

No. J. 3381
Police 189

Approving of the scheme for the redistribution and the re-allocation of the Police Forces and for the formation of investigating centres in the Bangalore and Mysore Districts.
